RESOLUTION ON THE REPORTS OF COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES DURING 1921-22.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 26TH FEBRUARY 1923.

RESOLUTION—No. 562M.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1921-22.

1. **Number of municipalities.**—The number of municipalities (116) remained unchanged. The provisions of the Bengal Municipal Act were extended to the town of Rajbari in the district of Faridpur at the close of the year.

2. **Elections.**—The elective system has been sanctioned for the Asansol Municipality, but owing to the delay in the formation of wards no election was held. General elections were held in 71 municipalities and were contested in the majority of cases. There was no contest in seven municipalities and in twelve other cases, which include Howrah, votes were recorded in only one ward. On the other hand, feeling ran so high in Dacca that in three wards polling continued up to the next morning. Irregularities frequently occurred in conducting ward elections and some elections were declared null and void. In Burdwan, Dacca, Pabna and Chittagong civil suits were instituted by unsuccessful candidates and in Chittagong, the new Board was unable to enter upon office within the year. The issue of Civil Court injunctions in such cases frequently interferes very seriously with the municipal administration and in the new Bengal Municipal Bill, which has recently been drafted and is now under consideration by Government, it is provided that no Court shall issue injunctions of this kind. The election rules were revised so as to provide for voting by ballot. This system was successfully worked in many municipalities, but the Magistrate of Dacca observes that in the case of the Dacca Municipality, where the constituency is a large one, it has caused much trouble both to the voters and the polling officers.

The number of municipalities of which Government appoint the Chairman was reduced to 4. The circumstances of these four municipalities are exceptional, and it was considered undesirable to make any change in their constitution for which, moreover, there has been no demand.

3. **Meetings.**—Altogether 169 meetings or one in every 14 failed for want of a quorum. The failure was most marked at Jainagar, where 10 out of 15 meetings were adjourned and two proved abortive. At Suri, Nabadwip, and Tangail about one-third of the number of meetings held was unsuccessful. The small municipality of Panihati held the largest number of meetings, viz., 47, while the Commissioners of the Ramjibanpur, Taki, Murshidabad and Kurseong Municipalities failed to meet once a month. The attendance of Commissioners was on the whole fair, but it is reported to be poor at Murshidabad.

4. **Rate-payers and voters.**—The total number of rate-payers rose from 322,466 to 327,239 or 15·7 per cent. of the total population. The ratio varied from 36·2 in Kumarkhali to 3·5 per cent. in Titagarh, a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the mill municipalities of Bhatpara, Garulia, Champdany and Bhadreswar and the hill stations of Darjeeling and Kurseong.

5. **Assessment and Taxation.**—The average incidence of taxation per head of population rose from Rs. 2-11-7 to Rs. 2-12-2. It is highest in the hill municipality of Darjeeling (Rs. 9-10-0). Next come Cossipore-Chitpur (Rs. 8-2-7), Kurseong (Rs. 7-13-11) and Howrah (Rs. 7-5). In three municipalities, viz., Narayanganj, Chittagong and Burdwan the ratio was above Rs. 4 while it is as low as 6 annas and 1 pie in Debhatta and under 7 annas in Bazitpur. A truer idea of the incidence of taxation can be gained by considering the amount paid by the actual rate-payers who number about one-sixth of the municipal population. According to this method the incidence comes to Rs. 17-14-1 per rate-payer for the whole Presidency. The variation for individual towns is great, the rate-payers in Darjeeling, for instance, paying Rs. 183 per head, while those in the petty rural towns pay on the average about Rs. 2 each. Generally speaking, the incidence of municipal taxation in the Presidency compared with English standards, is extremely low and although the comparison cannot be pressed, it is certain that approximation to English standards in municipal needs and amenities cannot be attained until the widespread aversion to higher local taxation is overcome.

A general or partial revision of assessment was made in 52 municipalities, while the revision made in the previous year took effect in seven other towns. The revision produced an increase of Rs. 4¾ lakhs in the municipal demand of the Presidency as a whole. The largest increases were obtained in the municipalities of Maniktola (Rs. 75,271), Garden Reach (Rs. 60,328), Budge-Budge (Rs. 23,576) and South Suburban (Rs. 20,836). In Budge-Budge, however, suits were filed by Messrs. Andrew Yule & Co.—the largest rate-payers—against the revision, three of which have been decreed since the close of the year. A water-rate was imposed for the first time in Noakhali and Naihati,—the rate in the latter case taking effect from the 1st April 1922, while in Chandpur the water-rate was reduced from 6¼ per cent. to 4$\frac{11}{16}$ per cent. on account of the large surplus in the waterworks fund.

6. **Collections.**—The total collections for the Presidency as a whole increased from Rs. 54 lakhs to Rs. 58 lakhs, but the percentage on the current demand fell from 95·5 to 95·3, the lowest ratio (54·4) being returned by Budge-Budge. In 13 municipalities the collections were equal to or in excess of the current demand and in 15 they were over 99 per cent. On the other hand, the ratio was under 80 per cent.—a deplorably low figure—in 8 towns, falling as low as 54 per cent. in Budge-Budge. Garulia alone collected the full demand without any remission or outstanding balance. The percentage of remissions on the current demand rose from 2·4 to 3·3. It was especially high in Mymensingh (18·8) and exceeded 10 per cent. in six others, viz., Chandrakona, Bansberia, Kotrung, South Dum-Dum, Jainagar and Rampur-Boalia. No satisfactory explanation has been given for these high ratios.

The balances outstanding at the close of the year rose from Rs. 7,06,896 to Rs. 8,54,003. Of this amount Howrah alone was responsible for Rs. 2,28,609. This large accumulation is mainly due to the general revision of assessment followed by appeals. Some old cases were settled in the year but as the bills were not amended in time the full dues could not be realized. The heavy balances in Cossipore-Chitpur (Rs. 45,311) and Budge-Budge (Rs. 31,738) were due partly to the non-payment of rates, which were the subject of civil litigation. Other municipalities which had outstandings of over Rs. 15,000 were Dacca, Narayanganj, Mymensingh, Barisal, Maniktola, Tollyganj, Bankura, Hooghly-Chinsurah, Bally, Chittagong and Rampore-Boalia. No satisfactory explanation has been furnished of the large outstanding balances in these cases, but generally they are due to laxity in collections and the unwillingness of the municipal executive to adopt coercive measures for the realization of their demand. The Magistrate of Rajshahi observes that in Rampore-Boalia there is in this respect a marked deterioration, which is further reflected in the increased amount of remissions.

7. **Income and expenditure.**—The aggregate receipts, including opening balances, rose from Rs. 97,43,588 to Rs. 1,14,79,564, the income from rates and taxes rising by nearly 4 lakhs. Expenditure also rose from Rs. 74,26,226

to Rs. 92,95,041, the largest increase, viz., Rs. 14,32,541 being under the head of "Public Health and Convenience."

8. **Closing balances.**—The closing balances, which had risen from Rs. 17 lakhs to Rs. 23 lakhs in 1920-21, fell again to nearly Rs. 22 lakhs; about one-third of the municipalities closed the year with balances exceeding one quarter of their total expenditure. Six municipalities had closing balances of over a lakh, viz., Cossipore-Chitpur (Rs. 3,16,223), Howrah (Rs. 2,78,332), Darjeeling (Rs. 2,09,955), Dacca (Rs. 1,32,393), Garden Reach (Rs. 1,32,281) and Maniktola (Rs. 1,20,630). No explanation has been furnished for the large balances in Howrah; in other cases they represent the unspent grants and loans received from Government for improvement schemes, such as water-supply, sewerage, etc., and the credit balance of special funds (*e.g.*, water, lighting, hackney carriage). The comparatively large balances standing to the credit of Cossipore-Chitpur and Manikitola are not excessive in the opinion of the Commissioner, regard being had to their needs. On the other hand, a number of municipalities failed to keep adequate working balances and in 15 cases, as against 13 in the previous year, they were insufficient to meet outstanding liabilities. In the case of Pabna, Muktagacha, Narayanganj, Navadwip and Debhatta, the outstanding liabilities exceeded largely the closing balances. The worst offender was Debhatta which had outstanding liabilities of Rs. 684 against an actual balance of Rs. 62 only. Next comes Narayanganj which closed the year with a sum of Rs. 2,969 only in hand but with liabilities of nearly Rs. 30,000. The present Chairman remarks that the municipal fund is well-nigh bankrupt.

9. **Public Instruction.**—The amount spent on education was Rs. 3,35,757 or 4·3 per cent. of the municipal income. The actual increase was Rs. 51,802 and as Government grants for educational purposes were less than those for the previous year, it may be inferred that the municipalities are showing greater readiness to discharge their obligations in respect of primary education. Seventeen municipalities, however, or one in every seven (as against 13 in the previous year) failed to spend 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, forty-one spent more than 5 per cent. of their income and eleven over 10 per cent. on primary education.

The municipalities of Cossipore-Chitpur, Garulia, Panihati, Sirajganj and Darjeeling have adopted the scheme drawn up by Mr. E. E. Biss for the improvement and expansion of primary education. Cossipore-Chitpur received a Government grant of Rs. 20,000 for the construction of primary school buildings. Garulia and Tollyganj decided to impose an education cess, though the latter municipality has not yet adopted Mr. Biss's scheme.

10. **Water-supply.**—The Naihati water-supply scheme was completed during the year and considerable improvements were made in the Darjeeling water-works, the distribution pipe being extended to Singamari bustee. The filtered water-supply was also extended at Barrackpore and Dacca. The opening of the water-works at Noakhali proved extremely beneficial to the towns-people during the recent drought. The water-works at Krishnagar were also completed. A water-supply scheme is being undertaken at Comilla, and the work has begun, while a bore-hole is being sunk at Government cost at Patuakhali; if successful, it will serve as the basis of a distribution system. The Chittagong Municipality submitted a revised scheme for the improvement of its water-works at an estimated cost of Rs. 1 lakh. Government agreed to contribute Rs. 50,000 on condition that the municipality raised the balance by a loan and increased the water-rate. Faridpur and Rishra-Konnagar, owing to financial difficulties, were unable to proceed with their schemes. The Howrah Commissioners had under consideration a project for the improvement of their filtered water-supply, to include the supply of water, road watering, drain flushing, and Fire Brigade purposes. The Berhampore Commissioners were in grave difficulties with their water-supply. The water-works have not been efficiently managed and the water

fund is bankrupt ; while the general fund is hardly adequate to meet the bare needs of municipal administration. The Minister for Local Self-Government held a conference with the municipal executive and found the Commissioners anxious to take all possible measures to remove the present *impasse*.

Government have directed a re-assessment and with the additional revenue, which may thus be obtained, the Commissioners should be in a position to raise the small loan of Rs. 10,000 which is immediately required for placing the water-works in a proper condition.

It is gratifying to notice that the suggestion made in the previous year's resolution that smaller municipalities should undertake water-supply schemes of a cheaper type, based on artesian borings or tube wells, received the approval of several municipalities. Baruipur with an income of Rs. 10,000 has sunk six new tube wells, while Bogra and Pabna propose to undertake experimental borings. The sinking of an experimental deep tube well has already been taken in hand by the Garden Reach Municipality. Generally speaking, it cannot be said that the municipalities of Bengal, though they appreciate the benefits of a pure water-supply, are very ready to secure them by submitting to increased taxation. In the past Government have assisted some of the larger municipalities with liberal grants-in-aid, where these bodies have shown a disposition to help themselves, but even if retrenchment in other directions enables Government to pursue this policy, it must be many years before State aid on this scale can be given to all the municipatities of the province. Local bodies have as yet made little attempt to adopt the cheaper method of strict reservation of the present supplies, even where an adequate number of tanks exists. Higher local taxation is essential, but in the meantime much could be done by utilizing the provisions of the Act for preventing the pollution of public supplies.

11. **Drainage.**—Minor works are carried out in Burdwan, Suri, Midnapore, Bally, Budge-Budge. Maniktola, Chittagong, Dinajpur and Rangpur. At Darjeeling as an experimental measure a new type of tipper giving a full flush of 30 gallons per discharge was provided at one of the drains to replace the inefficient system of flushing previously in use. and the results being satisfactory, further extension of this new method of flushing will be carried out gradually. The scheme started in 1917-18 for remodelling all sullage drains in this municipality with Raniganj tiles was completed during the year at a total cost of Rs. 27,224. A project for the improvement of drainage of the area adjacent to the Serampore Railway Station was approved by Government. The drainage scheme of Hooghly-Chinsurah which is estimated to cost Rs. 9 lakhs could not be taken up for want of funds and the execution of that prepared for ward No. 1 of the Krishnagar Municipality had also to be postponed. A supplementary scheme for English Bazar was prepared.

12. **Conservancy.** The conservancy charges which rose from Rs. 19 lakhs to more than Rs. 20 lakhs, were about Rs. 5½ lakhs in excess of the receipts from latrine fees.

An additional grant of Rs. 6,530 was made by Government for the completion of the Kurseong sewerage scheme. The Dacca Municipality was given a further grant of Rs. 4½ lakhs for its sewrage scheme which is in progress. The important Titagarh scheme which is estimated to cost more than 10 lakhs has been very recently sanctioned. Pending a decision in respect of the Grand Trunk Canal project, it has been impossible to sanction drainage schemes prepared for Cossipore-Chitpur, Maniktola and the neighbouring areas.

13. **Public Health.**—A gratifying feature of the year under review is the increasing interest displayed by most municipalities in public health. Measures were taken in many municipalities for the improvement of sanitation by filling up or cleansing insanitary tanks, ditches and *dobas* and by removing jungle and noxious vegetation. By-laws were framed by certain municipalities for the eradication of water-hyacinth. Steps were taken in Khulna for the improvement of insanitary groups of huts by the opening out of new roads and drains. Bhatpara raised about 30 bighas of low land, and the Municipal

Commissioners of Sherpur in Mymensingh filled up nine insanitary ditches and re-excavated nine tanks overgrown with weeds. In Maniktola no less than 15 foul tanks were filled up by the owners on requisitions made by the Commissioners. Birnagar, Chakdah and Kumarkhali, which are thickly overgrown with jungle, remained apathetic.

Preventive measures were taken to check the spread of epidemics. Medicines and disinfectants were freely distributed as far as possible and special doctors were appointed. Unwholesome food-stuffs were in some cases either destroyed or removed from the local bazars. Cholera broke out in 16 municipalities in the Dacca, Chittagong and Rajshahi Divisions. In most cases measures were promptly taken to check the spread of the disease. Two local zemindars lent the services of two doctors for the treatment of cholera in Muktagacha. Cholera broke out in epidemic form among the Assam coolies who assembled in Chittagong in May and June 1921. The situation, grave as it was, was aggravated by the abnormal political situation, accompanied by a persistent *hartal*, and a general strike of the Indian employees of the Assam-Bengal Railway Company and the India General Navigation and River Steam Navigation Companies. Sanitary measures were, however, organized under the personal guidance of the Commissioner and the Assistant Director of Public Health. Small-pox broke out in epidemic form in Berhampore and Jamalpur. A few deaths from small-pox also occurred in other municipalities, viz., Dacca, Sherpur, Mymensingh, Jalpaiguri, Rangpur and Bogra.

Free vaccination was carried on by several suburban municipalities and has been introduced for the first time in Krishnagar. In Titagarh, Baranagar and Bhatpara free home vaccination was given throughout the year. In some municipalities notices and prosecutions had some effect in improving the vaccination returns.

As an anti-malarial measure quinine was distributed among the poor who suffered from malaria. Maniktola, South Dum-Dum and Nawabganj distributed quinine free among school children. Old Malda and Nawabganj suffered much from malaria, the number of deaths in the latter town being no less than 182. Kala-azar is taking an epidemic form both in the interior and headquarters of Dinajpur. The municipality was without a Health Officer during the whole year, no suitable candidate being available on the present pay.

Mortality was high in Darjeeling on account of epidemics of influenza and relapsing fever. The disinfecting staff of the municipality was largely augmented and a Sub-Assistant Surgeon was appointed. Kurseong suffered less from influenza, but there were cases of enteric fever and diarrhœa.

In Chittagong, which had no Health Officer, the two Sanitary Inspectors did useful work. Lantern lectures were given in that town to instruct students in the general principles of public and personal hygiene, while in Mymensingh a campaign on these lines was undertaken with special reference to cholera and small-pox.

14. **Public Works.**—The amount spent on public works rose from Rs. 8,69,508 to Rs. 10,68,841, the largest increase occurring under the head "Buildings." The office buildings of Maniktola and Cossipore-Chitpur were extended. The percentage of outlay on public works to the total expenditure ranged from ·4 in Kurseong to 43·1 in Meherpur.

15. **Loans.**—Altogether 44 municipalities were in debt to Government at the end of the year, their total liabilities amounting to nearly Rs. 42 lakhs. Midnapore, Hooghly-Chinsura, Uttarpara, Krishnagar, Santipur and Darjeeling took loans aggregating Rs. 4,29,400, while Pabna and Maheshpur fully liquidated their debt.

16. **Audit of accounts and embezzlement.**—The accounts of almost all municipalities except Jalpaiguri, Cossipore-Chitpur, Debhatta and Baduria were audited during the year. Two cases of embezzlements in Satkhira were brought to light, and the tax-daroga and the collecting sarkar were criminally prosecuted with the result that the former was acquitted and the latter convicted. The Municipal Commissioners of Baraset are taking steps to realize

Rs. 203 misappropriated by their head clerk and accountant. Audit reports unfortunately receive too little attention. It is perhaps too optimistic to expect that the Examiner of Local Accounts should be welcomed as the guardian of the public funds, but it is unfortunate that his advent should be sometimes regarded as a visitation, leading only to long and unprofitable explanations. In the United Kingdom, the members of local bodies are personally liable for the proper use of the public funds. and it is doubtful if the audit of local accounts can ever be really effective unless a more definite responsibility can be laid on the municipal board.

17. **General Remarks.—Burdwan Division.**—*Howrah.*—The total ordinary income rose from Rs. 13 lakhs to nearly Rs. 16 lakhs. The increase was mainly due to general revision of assessment in certain wards. Continuous revision of assessment under the Calcutta Municipal Act has been introduced and two out of the ten wards are re-assessed every year. The expenditure also showed an increase of Rs. 76,528, chiefly under the heads "Water-supply" and "Roads" and amounted to Rs. 12,62,192. The Commissioners have purchased a water-cart, propelled by mechanical power, to replace some of their old-fashioned bullock-drawn vehicles. The conservancy administration was managed by the Ward Committees as formerly; there were difficulties in recruiting sweepers and mehters. The conservancy of Howrah is not in its strong point, but in so large a town, nothing but a water-borne sewerage system can prove satisfactory. The scheme drawn up by Mr. E. E. Biss for the improvement of primary education was considered by the Municipal Commissioners; it was decided that the time was inopportune for the imposition of an educational cess. Measures were. however, taken to give the scheme a trial by starting two schools with the existing resources of the municipality, supplemented by an adequate Government grant.

The health of the town showed some slight improvement; the birth rate was 22·05 per mille against 20·20, whille the total number of deaths was 6,419 against 7,713 in the preceding year. The death-rate among infants also decreased (1,162 against 1,219). The audit disclosed considerable slackness in the Collection Department. A new collector has been appointed and most of the defects remedied. It is believed that no defalcation took place.

18. The administration of the Burdwan Municipality was taken over by an elected Municipal Board at the close of the year; the Board is reported to have been working satisfactorily. The town is very malarious and the census of 1921 showed a considerable decrease in the population. Kala-azar has also made its appearance in the town. A scheme for the improvement of water-works has been sanctioned since the close of the year. The supply of good drinking water at Asansol and Raniganj is very inadequate. As regards the municipalities in Bankura, the Magistrate reports an absence of initiative and zeal in the cause of municipal progress and states that the Commissioners have hardly yet developed the spirit of local patriotism so as to take any real pride in the administration of their respective municipalities.

The finances of the Midnapore Municipality are seriously embarrassed. Special funds have been illegally diverted to general purposes; a private donation to the Midnapore College has been misapplied in this manner. These grave irregularities have been commented on by the Examiner of Local Accounts year after year, but no attempt has been made to set matters right. The collections are unsatisfactory and additional funds are necessary to complete the water-supply scheme. The small municipalities of Chandrakona and Kharar continue to remain unsatisfactory. Chandrakona was distinguished by its dissensions, while in Kharar an attempt was made to stop the payment of municipal taxes. This took the colour of non-co-operation and got the support of local non-co-operators, but in its origin, this movement is said to have been due to more personal causes.

In Hooghly-Chinsurah the collections were not satisfactory, the outstanding balance being Rs. 22,577. The municipality is unwieldy and parts of the town are apt at present to be neglected with the result that an agitation is on foot to partition the municipality. Collections improved in Bansberia; a jute mill having been erected in an area covered with jungle, considerable

improvement has been effected both to public health and municipal income. In Champdany the Commissioners generally showed a keen interest in municipal affairs and the municipality was free from the baneful influence of party faction, which is said to paralyze municipal activities in Kotrung. The administration of the Bhadreswar, Rishra-Konnagar and Uttarpara Municipalities is described as being satisfactory.

19. **Presidency Division.**—About one-fourth of the municipalities of the Presidency Division are in the 24-Parganas district and they include examples of most types of municipality in Bengal. Some are large suburban towns in which a standard of administration similar to that of the metropolis is needed, others are progressive mill towns and the rest are overgrown villages in which the conditions are more rural than urban. The following extracts are quoted from the report of the District Magistrate :—"The year on the whole has been one of comparative inactivity, and it is very difficult to point to any important achievement in it........ There are far too many bad municipalities. Most of the bad municipalities suffer from insufficiency of funds, even if the best use is made of the resources that are available. On the other hand, there are municipalities like Cossipore-Chitpur, Baranagore, Titagarh, Bhatpara, Naihati and Garden Reach whose funds are considerable and in all of them it is gratifying to be able to note that in spite of occasional lapses, party feeling is not allowed to rise superior to public interests, and that these municipalities are steadily endeavouring to improve the standard of administration. Among the smaller municipalities Baruipur continues to do the best it can with its limited resources."

"The anti-malarial societies in Panihati made an interesting experiment during the past year in maintaining a society's doctor and establishing a chemist's shop, the shares of which are held by the members of the societies. The financial results of the experiment are said to be satisfactory, but at present the scheme is only in an experimental stage."

"The need for more effective supervision of the municipal staffs still continues pressing. Even the best municipalities furnish extraordinary examples of the lack of supervision over the subordinate staff."

It is satisfactory to find that in Garden Reach and Cossipore-Chitpur some attempt to work the *bustee* sections for the improvement of insanitary (*bustee*) areas has been made.

The Magistrate of Nadia reports that the public health in all the municipalities of that district was on the whole good. Kusthia is said to be the best managed municipality in the district, while Nabadwip suffered from personal rivalries. The administration of the municipalities in the Murshidabad district is said, so far as funds permitted, to have been satisfactory except in Azimganj where party faction of a violent type was unfortunately rampant. Better results are, however, expected from the new Board which has lately been formed. An interesting development in this town is the establishment of Standing Committees for the improvement of sanitation and street lighting. Khulna continues to give commendable attention to the question of water-supply and sanitation.

The Commissioner of the Division observes :—

"From my point of view, the principal feature of the year's municipal administration has been the comparative neglect of vital statistics and struggle of rural municipalities to improve their water-supply and of the few municipalities, which already have water works, to keep them in order. Neither Municipal Commissioners nor their executive staff are expert mechanics, and for the proper care of the plant and machinery they have to depend on the reputed or *soi-disan* experts whom they can attract to take charge of the management."

"In regard to the other than the 'best' municipalities, which are in a minority, I cannot write with enthusiasm of the public spirit or the administrative energy exhibited by the Local Commissioners nor can I say that the best and most influential men in the community have yet learnt to take a laudable interest or an active part in the management of their local

affairs. Despite the large measure of municipal autonomy, I am unable to chronicle any municipal development or even the appearance of municipal enterprise."

"In all the municipalities of the Division, large and small, too often some one is needed to set local life in motion, to keep the local executive active in every direction. Great is the *vis inertiae* to be overcome, the repugnance to self-help and to self-taxation; great the practical distrust of science; and great the number of persons interested in offending against sanitary laws, even amongst those who must constitute the local authorities to enforce them."

20. **Dacca Division.**—The Commissioner of the Dacca Division observes that the administration of the larger municipalities is somewhat disappointing. Though some good work was done in Dacca, the record was marred by bad collections. The Barisal administration lacks in strictness and vigour; the management of its water-works was inefficient and caused much dissatistisfaction. The Jhalakati and Nalchiti Municipalities were well administered. Bad roads and bad drains are the marked features of Mymensingh while the outstanding liabilities exceeded the closing balance. Jamalpur is handicapped by the inclusion of a large semi-rural area, which might be more suitably placed under union boards. Sherpur is said to be efficiently administered. Its collections—a good test—are very satisfactory. The funds of the Faridpur Municipality show a heavy deficit, and the new Board have earnestly faced the problem of cutting down expenses to improve their financial position.

21. **Chittagong Division.**—The Cox's Bazar Municipality continues (it is said) to do satisfactory work so far as its income permits. In Chittagong, however, the resources of the municipality were neglected. The collection of rates was bad and inefficient, although roads, water-supply, conservancy and education all called for a vigorous policy of improvement. Thanks to the liberality of a local Marwari gentleman (Babu Jagannath Madan Gopal Maheta), a suitable site comprising 8 bighas of land was acquired for a dispensary building at Bral manbaria and the foundation stone was duly laid. Noakhali is being washed away, and though there is much to be done, the decreasing municipal income and the uncertain fate of the town are a bar to any vigorous measures of improvement.

22. **Rajshahi Division.**—The Magistrate of Rajshahi finds little to commend in the administration of Rampur Boalia. The financial position of the Pabna Municipality is unsound: its current liabilities exceed the amount outstanding from taxes. The normal municipal services are to some extent being carried on by means of credit, and the only remedy for the present financial embarrassment is an increase in taxation. In English Bazar municipal affairs are no brighter, collections were bad and there was no money for road repairs. No steps were taken for the general revision of assessment which was due in the year. The incidence of taxation in Rampur-Boalia, Pabna and English Bazar is especially low and these are perhaps the worst administered municipalities in the Division. Progress is impossible in these municipalities without an increase of income, whether by raising the rates or by more stringent assessment. The Darjeeling Municipality fully maintained its reputation as a progressive municipality. Improvements were effected in the water-supply, drainage, electric lighting and municipal buildings, while by the purchase of the Lower Beechwood estate the municipality will be able to take up in the future a housing scheme to meet the growing demand for the provison of houses of a cheap and sanitary type. Kurseong has completed a sewerage and drainage scheme which is, however, not working altogether satisfactorily.

23. **Conclusion.**—In a brief sketch of municipal administration such as this, it is not easy to make a just appraisement of its merits and defects. The deadening weight of proverty tends to crush out all enthusiasm and enterprize in these mofussil towns. Schemes, which are broached with some eagerness and worked out in industrious detail, are indefinitely postponed

and finally cease to possess interest or to generate hopes. And disappointment of this kind produces in the end apathy and stagnation. Municipal administration offers an attractive and ample field for the highest talent, when there are funds, and ideas can be given scope. Where the income yields just sufficient rupees to pay the sweepers, mend the roads and provide oil for a few street lamps, the administration becomes a matter of dull routine and it is not strange if it fails to arouse public spirit or produce civic pride. When these municipalities pass from hard penury to more comfortable budgetting, a spirit of greater enterprize may colour and inform their work. It is, however, by no means certain that the general public within any measurable time, will be prepared to pay the price and so long as the fear of increased taxation continues to be the common meeting ground of progressive and reactionary, municipal administration must be dreary, uneventful and barren.

24. Formula for calculating heating surface.

The heating surface for these purposes may be defined generally as the total [illegible] of all plates and tubes exposed to heat on one side and in contact with water on the other, measured on the water side. For Lancashire and Cornish boilers the total heating surface shall include the wetted surface of the furnaces between the end plates and of [illegible] where fitted, and the part of the external shell below the side flue covers. [illegible] the areas, furnaces may be considered as plain cylinders, the [illegible] is to be taken as their mean [illegible]

plates. For the shell the width of that part of the circumference below the flue covers is to be taken as = 2D, and this width × the length between end plates is to be taken as the area of shell heating surface. The part of the surface of the back end plate exposed to heat is to be neglected.

The formula for the total heating surface of a Lancashire boiler having plain furnaces without cross-tubes is therefore H. S. in square feet=2L (3·14d+D). L is the length of the boiler between end plates, D is the mean external diameter of the largest belt of shell, d is the diameter of furnace flue all sizes in feet.

For steam and water drums of water tube boilers the heating surface of the drum may be taken as half the external mean circumference into the clear length of drum between the outer brick walls or centres of cross boxes as the case may be. The surface of the tubes may be taken as the external furnace of the inclined tubes between tube plate and headers. The heating surface of the headers is to be neglected.

For Marine type boilers the heating surface shall include the wetted surface of the furnaces between the tube plates (considered in the same way as for Lancashire boilers), the wetted surface of the combustion chambers (less the area of the tube holes) and the wetted surface of the tubes between tube plates. The parts of the front tube plate exposed to heat are to be neglected.

For Locomotive type boilers the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of the tubes and the fire-hole and ring) and the wetted surface of the tubes between tube plates. The smoke box tube plate is to be neglected.

For vertical boilers of ordinary type the heating surface shall include the wetted surface of the fire-box above the foundation ring (less the area of fire-hole and ring and tube holes, if any) and the wetted surface of any cross or other tubes and uptake below the lowest water level shown in the gauge-glass. For any other heating surface not provided for in the foregoing instructions the same general procedure shall be observed. No deduction should be made for stays, etc., in calculating the heating surface.

4. *Delete* rule XXII of the said rules.

5. In column 2 of Division II of Form No. 1 for the word "horse-power" *substitute* the words "Heating Surface."

6. In [illegible] Form No. 1 for the existing scale of fees *substitute* the following, namely :—

		Rs.
Boilers up 100 square feet heating surface ...	...	20
" from 101 square feet H. S. to 300 square feet H. S.	...	25
" " 301 " " " 500 " " "	...	30
" " 501 " " " 700 " " "	...	35
" " 701 " " " 900 " " "	...	40
" " 901 " " " 1,100 " " "	...	45
" above 1,100 " "	...	50

Formula for calculating heating surface.

(As per rule XXI.)

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1921-22.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 27TH FEBRUARY 1923.

RESOLUTION—No. 27.

READ—

The Annual Irrigation Revenue Report for the year 1921-22.

The irrigation and navigation works in operation in Bengal for which both capital and revenue accounts are kept are (1) the Midnapore Canal, (2) the Hijili Tidal Canal, (3) the Calcutta and Eastern Canals and (4) the Madaripur Bil Route. Of these, the Midnapore Canal is both for irrigation and navigation and the other three are for navigation only. All these works are now unproductive.

A capital account has also been opened and was maintained during the year under review for the Grand Trunk Canal, the construction of which was sanctioned by the Secretary of State at an estimated cost of Rs. 3,09,00,000,

although all works in connection with the project except those for which Government have committed themselves have been held in abeyance pending further examination on its productive aspect. For the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Baxi Khal a revenue account was maintained during the year, although this will be discontinued with effect from the financial year 1922-23. The other works of the department, viz., those in connection with the Eden Canal, the river training works and the anti-malarial works were treated as works for which neither capital nor revenue accounts are kept.

2. The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

3. The capital expenditure on the **Grand Trunk Canal** (direct and indirect) during the year was Rs. 35,73,868 and the total capital outlay to the end of the year was Rs. 54,22,997. The expenditure during the year was principally incurred to meet payments on account of the dredger "Ronaldshay" and also partly to meet establishment charges and the cost of acquisition of land.

4. No capital expenditure was incurred during the year on the **Midnapore Canal** which consists of two weirs at Midnapore and Panchkura, 69·75 miles of main and branch canal used both for irrigation and navigation, and 254·5 miles of distributaries. The area irrigated during the year was 83,012 acres as compared with 91,066 acres in 1920-21 and an average of 87,139 for the triennium ending March 1921. The receipts and working expenses (direct and indirect) were Rs. 2,32,836 and Rs. 1,91,646, the result being a net revenue of Rs. 41,190 against a net deficit of Rs. 4,576 in the preceding year. The large difference is due mainly to far less expenditure having been incurred in the year under review on maintenance than in the

preceding year. The water rates in this canal have since been raised generally. Proposals for increasing the navigation tolls on this and other canals are also under the consideration of Government.

5. No capital expenditure was incurred during the year on the **Hijili Tidal Canal** which with the Terapakia pass khal, Palaboni khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal of 49¾ miles length. The receipts and working expenses of this canal during the year were Rs. 67.507 and Rs. 27,418, respectively, the result being a net revenue of Rs. 40,089 against a net revenue of Rs. 35,045 in the previous year. The better result is attributable to the absence of any flood and consequent depression in trade which was present in the previous year.

6. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 1,184 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. The receipts during the year from navigation tolls on these canals were Rs. 3,87,457 as compared with Rs. 3,65,011 in the preceding year. A small capital outlay was incurred on the canal during the year and this was chiefly on excavating a channel between the Kakrabonia khal and Channel Creek to the south of the Doagra Channel in the Sundarbans steamer route. This channel will serve as an alternative to the Doagra Channel which is rapidly dying.

7. The capital expenditure during the year on the **Madaripur Bil Route** connecting the Madhumati and Kumar rivers in the Faridpur district, was incurred chiefly on the work of widening and deepening the main channel of the route. The receipts from navigation tolls amounted to Rs. 2,82,786 against Rs. 3,14,963 in the previous year. The heavy fall is chiefly due to depression in trade on account of heavy import duties and high prices of materials, failure of the [illegible] less production of jute owing to low price and also partly to the coal crisis.

8. **The Orissa Coast Canal** in conjunction with the Hijili Tidal Canal affords communication between Bengal and Orissa, and before the opening of the Bengal Nagpur Railway, it was the only inland route by which food could be conveyed into Orissa in time of famine. This canal is for navigation only and lies partly in this Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses (direct and indirect) for the portion within Bengal were respectively Rs. 14,786 and Rs. 10,280 against Rs. 13,236 and Rs. 7,691 in the previous year.

9. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its headwaters. The report of the Committee appointed in 1917 to advise Government on the steps to be taken to carry out systematic observations of the changes in the Nadia Rivers and also, if possible to improve their condition as navigable channels and as feeders for the Lower Hooghly is still under the consideration of Government. The only outcome so far has been the constitution of a permanent board whose duty it will be to examine all important projects which are likely to restrict the free flow of flood water. The receipts and working expenses (direct) of the system during the year under review were Rs. 13,072 and Rs. 78,786, respectively.

10. **The Gaighatta and Buxi Khal** is a short channel connecting the rivers Damodar and Rupnarain. The collection of tolls on boat traffic in this khal was leased for three years from 15th May 1919 at a rental of Rs. 4,700 per annum. The receipts and working expenses (direct) were respectively Rs. 1,900 and Rs. 2,189.

11. **The Eden Canal** was originally constructed for sanitary purposes, but it is now used to some extent for irrigation. The supply of water in the canal has become insufficient and uncertain in recent years owing to the precarious nature of supply in the Damodar river. It is expected that this state of things will improve on the construction of the Damodar canal project, an estimate amounting to Rs. 68 lakhs (direct charges) for which has been sanctioned by the Government of India and the Secretary of State. The

revised estimated cost of the project has risen up to 90 lakhs, and as it is impossible that under the present state of finance, Government should embark upon this prohibitive expenditure, an enquiry is being made if the people to be benefited by the project are agreeable to contribute to the same should it be thought desirable to carry it out under the Agricultural and Sanitary Improvement Act, 1920.

12. The work in connection with the **Improvement of the Bidyadhari river** by creating a spill reservoir for the flood-tide was in progress during the year. The operations have proved satisfactory, but for further improvement, dredging work has been commenced in the river to which the Corporation of Calcutta and the Government of Bengal will both contribute.

13. Of the works in connection with the projects for mitigating the effects of the Damodar floods, some were completed during the year and others were in progress.

14. (*i*) **Training Works** were, as usual, carried out in the Dhaleswari and Buriganga rivers to facilitate navigation and improve the water-supply of the town of Dacca. The training works were highly satisfactory in the Dhaleswari river, but it was not so in the Buriganga, as a considerable amount of discharge escaped through the cut at Jagannathpur.

(*ii*) Training works were also carried out during the year on the river Ganges between Rajmahal and Goalundo through the agency of the India General Navigation and Railway Company, Limited.

(*iii*) To improve navigation as well as the sanitary conditions and water-supply of the town of Rampur Boalia, training works were carried out on the channel of the river Ganges.

(*iv*) At the mouth of the Bhagirathi river at its offtake from the Ganges no dredging was done during the year for want of funds as well as of a suitable dredger. Attempts were made to improve the entrance by means of bandalling only.

15. **General.**—As stated in the last year's resolution, the important problems with which the Irrigation Department in Bengal have to deal are connected more with the improvement of navigation and sanitary conditions and control of flood water in the province than with irrigation properly so called. As regards the improvement of navigation, the Government have long been impressed by the urgent necessity of developing the waterways and the Grand Trunk Canal is the outcome of laborious investigations carried out for the purpose for several years. The project was sanctioned by the Secretary of State, but a special officer has been deputed to work out the details to show its productive aspect to the Legislative Council before actual construction is taken up. It is expected that if the project is carried out, navigation in the Province will be very greatly improved.

The proposals for river improvements at Dacca were under consideration during the year under review. Of the anti-malarial schemes required for the improvement of the sanitary and drainage condition of the Province, some were completed during the year and others were under construction or investigation. The flood embankments and the sluices in them were efficiently maintained during the year.

16. The Irrigation Department during the year under review was successively in charge of Rai Amar Nath Das Bahadur, Mr. C. Addams-Williams, C.I.E., and Mr. G. T. Huntingford. The thanks of Government are due to these officers for the efficient conduct of the affairs of the Government during the year. The good work of other officers has also been noted by Government.

Order.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Governor in Council,

G. T. HUNTINGFORD,

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1922.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 5TH MARCH 1923.

RESOLUTION—No. 2332L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1922.

During the year under review the decision to reduce the survey programme from a four-party to a two-party programme was carried into effect. Traverse survey was finished in the districts of Bogra and Pabna by one party and continued in that of Khulna by the second party. The main programme carried out consisted of 1,864 square miles against an estimate of 1,801 square miles. It was fully completed and no revision work remained.

The Survey Department also carried on some miscellaneous surveys during the year. The survey of the limits of the jurisdiction of the Calcutta High Court which was undertaken during the preceding year was continued during the year under review.

2. The report of the Director of Land Records shows that the settlement staff made good progress in the face of great discouragement. In addition to being afflicted by epidemics of influenza and fever, which of late have been seriously interfering with the progress of settlement work, the settlement staff were, during the year under review, harassed by the spread of non-co-operation to the mufassal and an outbreak of lawlessness which synchronised with the most critical months of the short field season. The effects of the outbreak were most seriously felt in the Pabna-Bogra and Birbhum settlements. In the district of Bogra every householder was forbidden on pain of boycott to give any shelter or food to an amin or to sell anything to a settlement employee even in the markets; Mr. Macpherson, I.C.S., the charge officer, was attacked by a big crowd armed with sticks and oars and but for the intervention of some friendly villagers might have been seriously hurt. In the district of Birbhum the amins were driven out of the most important villages, and in some cases the houses, in which they had taken shelter, were burnt, and in others they were escorted to the railway station and given their fares home; the Settlement Officer and his staff were publicly insulted and abused and on more than one occassion narrowly escaped assault. Non-co-operation also interfered with recovery in Jessore and was partly responsible for strikes in the Bankura and Nadia presses. The settlement staff, however, faced the unexpected situation with exemplary courage and patience: and it is significant to note that the Director of Land Records reports that in the district of Bogra the raiyats eventually realised that they had been misled and were soon taking as much interest in the work as the raiyats of Bakarganj or Mymensingh before the war. Moreover, but for the fact that the number of plots and interests to the square mile have largely exceeded the standard in all the districts taken up in recent years, the programmes

would have been practically up-to-date in all settlements in spite of the curtailment of the budgets and the consequent sudden changes in the programme.

3. Major settlement operations in the districts of Mymensingh, Midnapore, Tippera, Noakhali and Rajshahi, which were in their closing stages, were practically completed; they were in full swing in the districts of Pabna, Bogra, Bankura, Birbhum, Nadia, Jessore and Khulna. The new districts taken up for cadastral survey during the year were Khulna in place of Jessore and Birbhum in place of Burdwan. Owing to the financial difficulties of the province, only a limited programme was undertaken in Birbhum and the work stopped; the work was confined to the cadastral survey and khanapuri of 628 square miles out of the area traversed in 1920-21. Altogether 2,500 square miles were cadastrally surveyed against 2,875 square miles in the previous year and 2,477 square miles in 1919-20. Attestation was done in 2,638 square miles and final publication was completed in 2,387 square miles as against 2,477 and 2,140 square miles, respectively, in the previous year. By the end of the year, records-of-rights had been completed in 58·4 per cent. of the area in this province to which the Bengal Tenancy Act applies. The decision to reduce the programme from a four-party to a two-party programme also applies to the settlement proceedings under the Director of Land Records in respect of cadastral parties. Thus during the year under review there were two full cadastral parties at work in Pabna-Bogra and a reduced party in Birbhum. The complete reduction to a two party programme has been effected from the year 1922-23, but the settlements of districts taken up in accordance with the larger programme are still under completion.

4. Important minor settlement operations for the revision of land revenue were also carried on in the districts of the 24-Parganas, Dacca, Faridpur, Bakarganj, Tippera, Darjeeling and Jalpaiguri. Altogether, 402·79 square miles were cadastrally surveyed and records of 15·25 square miles were finally published. The revenue was increased from Rs. 77,362 to Rs. 1,08,039.

5. In Nadia, complicated questions connected with *utbandi* tenancies cropped up in the third block as in the first two blocks. In some parts of this block the increased demand for land has led the tenants to take conversion of the *utbandi* lands into ordinary raiyati holdings on the landlords' terms. But, owing to the rates at which conversion was made being too high, some of the poorer lands have been surrendered, and settlement on the *utbandi* system is again going on. A Bill which has been framed on the recommendations of the Committee appointed to consider the amendment of the Bengal Tenancy Act about the conversion of *utbandi* tenancies into ordinary raiyati holdings has recently been circulated for opinion.

6. Resumption proceedings have formed a heavy incubus on the settlement operations in all the districts of Eastern Bengal, but all the main rivers of the province have now been covered and except perhaps in Khulna the burden on future settlements is expected to be comparatively light.

Up to the end of the year under review, proceedings have been drawn up for 1,827 new estates; and the proceedings for 1,550 estates with a land revenue of over Rs. 2,26,000 have been confirmed by the Board of Revenue. The Director of Land Records makes the interesting statement that if the value to Government of the new estates thus formed is capitalised at 20 times the revenue the proceedings have secured to the State property worth about 58 lakhs of rupees at a cost hardly exceeding 5 per cent. of this amount.

7. Mr. C. A. O'Donel officiated for Lieutenant-Colonel F. C. Hirst in the Bengal Survey Department up to the 19th November 1921, after which Lieutenant-Colonel Hirst held charge of it up to the end of the year. Mr. F. A. Sachse, I.C.S., was in charge of the Department of Land Records throughout the year. The Governor in Council has much pleasure in acknowledging the services rendered by these officers and also by the

NOTIFICATION.

No. 24 Marine.—The 17th March 1923.—The following questionnaire framed by the Indian Mercantile Marine Committee, together with the instructions for the guidance of those who desire to forward their views to the Committee, is published for general information.

A. MARR,

Secretary to the Government of Bengal.

INDIAN MERCANTILE MARINE COMMITTEE.

Instructions to persons invited to give evidence before the Indian Mercantile Marine Committee.

The "terms of reference" to the Committee are stated in the attached memorandum (Appendix B). The following questions are designed to cover the whole field of the enquiry, so far as it can be outlined at this stage. It is not, therefore, expected that each witness should necessarily answer all the questions put. It is particularly requested, however, that categorical replies should be given to each question which a witness may find himself in a position to answer and that no attempt should be made to reply to the Questionnaire as a whole in the form of a general memorandum. If a witness wishes to give his views on any points relevant to the enquiry, which have not been included in the Questionnaire, it would be convenient that such points should be dealt with in a supplementary statement. Appendix C contains a brief account of the different forms of State aid or protection given in various countries for the development of a national mercantile marine which, it is hoped, will serve as a useful guide to witnesses as to the particular lines on which their views and suggestions are required. The special attention of shipbuilding and engineering firms is drawn to the separate list of questions on the subject of shipbuilding and engineering which forms Appendix A to the Questionnaire.

2. The Committee is inviting directly or through Local Governments various associations and individuals to forward in writing their replies to the Questionnaire. The Committee will also be glad to receive replies from any Associations or individuals not so invited, who may wish to represent their views. Copies of the Questionnaire can be obtained on application to the Secretary, Indian Mercantile Marine Committee, Royal Indian Marine Dockyard, Bombay, or to the Secretary in the Marine Department of the Government of Bombay, Bengal and Madras and the Secretary in the Commerce Department of the Government of Burma.

3. The early receipt of written replies to the questions will greatly facilitate the work of the Committee. After perusal of the replies the Committee will select the witnesses for oral examination. To give adequate time for this it is requested that replies may be despatched to the Secretary with the least possible delay.

J. H. GREEN,

Secretary, Indian Mercantile Marine Committee.

27. If you consider State aid necessary or desirable, what method or methods do you advocate ?

28. Do you advocate any legislative measures for the purpose of the satisfactory development of these industries by the people of this country, and, if so, what should the legislative measures be ?

29. Are you in favour of the grant of construction bounties to vessels built in Indian shipyards ?

30. Do you advocate that construction bounties should be confined to vessels built of steel only ? If so, what, in your opinion, should be the minimum gross registered tonnage of vessels built in Indian shipyards, which can be considered eligible for a construction bounty ?

31. If you advocate the grant of construction bounties, what rate per ton of gross registered tonnage do you recommend should be given for the hull alone ?

32. If propelling machinery also is built in India, would you advocate a bounty per actual horse power being paid to the propelling machinery builder ?

33. In the case of vessels which are to receive shipbuilding bounties, do you advocate that no materials made outside of India should be used for the construction of the hull and propelling machinery or would you advocate any exception such as :—

(i) Stem, stern post, rudder and rudder tiller, rudder post, quadrant, and rudder pintles.

(ii) "A" brackets and triple screw shaft bearings.

(iii) All stanchions not less than 7 inch diameter.

(iv) All kinds of springs.

Encouragement of the Construction of Wooden Ships.

36. What is your opinion regarding the present condition of the Wooden Shipbuilding industry in India ?

38. Can you suggest any measures to remove or mitigate existing difficulties or disabilities, without having recourse to State aid, and to encourage the people of this country to further develop such industry ?

39. Are you of opinion that State aid is necessary or desirable to promote the further development of this industry by the people of this country ?

40. If you consider State aid necessary or desirable, what method or methods do you advocate ?

41. Do you advocate any legislative measures for the purpose of the further development of this industry by the people of this country, and, if so, what should the legislative measure be ?

42. Are you in favour of the grant of construction bounties to wooden ships built in Indian shipyards ?

48. If some cadets are also trained in England, do you consider that they should be expected to pay the full fees for such training, or do you advise that Government should assist by establishing a system of scholarships for the purpose ? If the latter, please give your views regarding the form which these scholarships should take ?

49. If the training ship or establishment should be in India, should there be one or more, and do you recommend that the maintenance charges of such institutions should be met wholly or partially by the levy of fees? If not wholly, by what means do you suggest that the maintenance charges should be met?

50. Do you advocate the establishment of a training ship or nautical college on shore?

Further training as apprentices to the sea.

51. Do you advocate that after undergoing their preliminary training, the boys should serve a period of apprenticeship in steamers of the Mercantile Marine or in a sea-going training ship?

52. If the former, do you consider that shipowners are likely to accept apprentices for training, and if not, do you know what their principal objections are to doing so? Can you suggest any measure to overcome such objections and to encourage shipowners to accept apprentices?

53. If the apprentices are required to pay a premium for their apprenticeship, should Government pay the whole, or any portion of it?

54. If you recommend the provision of a sea-going training ship for apprentices, do you consider that this should be supplied and maintained by Government, or are you of opinion that it could be maintained entirely or partially by premiums and by carrying freight or Government stores?

55. Do you consider that apprentices in a sea-going training ship should be given free food, and any uniform or clothing allowance during apprenticeship?

56. Have you any views as to the curriculum of study during the period of training as a cadet and as an apprentice?

58. If so, how many academies do you consider are likely to be required for the purpose and in which ports should they be situated? Could they be made self-supporting by fees or should they be provided and maintained wholly or partially by Government?

Engineers for the Indian Mercantile Marine.

59. Do you consider that any considerable number of the youths of this country are likely to be desirous of following the sea in the capacity of Engineers in the Mercantile Marine?

60. If so, should Government take any active steps to provide for—

(a) their training,
(b) future employment, and
(c) facilities for further study when qualifying for Board of Trade Certificates in the various grades or would you leave these to private enterprise in India?

61. Will you please state your views in detail as to the nature of the facilities which should be supplied by Government?

63. Are there any schools, colleges or institutes in the ports of India where sufficient theoretical knowledge can be obtained by apprentices to enable them to become efficient Marine Engineers, and if so, are the numbers sufficient?

Recruitment of Indians as Executive Officers and Engineers in the Royal Indian Marine.

The Commissioned ranks of the Royal Indian Marine both in the Executive and Engineering branches are open to Indians provided they have the necessary qualifications. These qualifications are :—

Executive Officers.

Under the rules, as they stand at present, the limits of age for appointment to the junior executive rank of the Royal Indian Marine, *viz.*, Sub-Lieutenant are 17 and 22 years. A Board of Trade Certificate (Second Mate) is not obligatory, but in lieu thereof a candidate must produce evidence of four years' service at sea, or a course in a training ship with subsequent service at sea amounting to four years in all. Candidates must have had sea service outside the Indian Ocean. Preference is ordinarily given to candidates trained on His Majesty's School Ships "Conway" or "Worcester" or at the Pangbourne Nautical College. If a candidate is without a Board of Trade Certificate, he is appointed on probation as a midshipman for 18 months in the first instance, during which period he is required to qualify for promotion to the rank of sub-lieutenant. The candidates are selected by a Selection Board appointed by the Secretary of State for India.

The Government of India are now considering proposals for obtaining candidates for the Royal Indian Marine direct from the training ship in future, instead of from the Mercantile Marine Service, and for completing their training in India.

The "Worcester" is at present the only training establishment which is prepared to take youths from this country and that only to a limited extent. They would have to join at the age of fourteen.

The Royal Indian Marine being a small service the average entry in each year is only about four.

64. Do you consider the present arrangement adequate or would you recommend some other scheme, such as the establishment of a training ship in India for the Royal Indian Marine or a combined training ship for the Royal Indian Marine and proposed Indian Mercantile Marine? Please state your views.

Engineer Officers.

The qualifications for these appointments are five years' service as an apprentice in a recognised Engineering firm or Government Dockyard.

At present there are no Engineering firms or Government Dockyards which can give the necessary training in Marine Engineering as no construction work of sufficient size is undertaken.

It will be necessary, therefore, until a shipbuilding industry is instituted in India or the Royal Indian Marine Dockyard is largely developed, that candidates for Commissions in the Engineering branch of the Royal Indian Marine must be trained in Great Britain.

65. Under these circumstances, do you consider that the Government should give any facilities to enable suitable candidates to serve their apprenticeship?

General.

Postal Subventions.

It has always been an accepted principle that so far as Maritime Services are concerned, the course of the post should follow as far as possible the course of trade. Consequently to secure the maximum economy in carrying mails, steamer services already in existence have been utilised for the purpose. Subsidies are fixed by negotiation or tender based on the regularity and speed of the services and the number of miles combined with the speed has been the determining factor in fixing the rate.

66. Do you accept the above or have you any other views as to how these mail contracts should be arranged?

67. What other conditions, if any, do you consider it necessary or advisable to introduce in mail contracts in the future and with what object?

68. What considerations, if any, do you wish to urge in order to give all steamship companies in India an equal chance of competing for mail contracts?

Indirect Aid.

69. Do you advocate any methods of indirect aid to promote the establishment of an Indian Mercantile Marine? If so, what are they?

Finance.

70. If you have advocated direct or indirect State Aid or assistance, what method or methods can you suggest for the purpose of raising the funds required? Will you give figures in support of your proposals, including the total sum involved?

For the purpose of questions Nos. 1 to 35 "Vessels" should be deemed to mean "self propelled vessels" unless where otherwise expressly stated.

"Actual horse power" should be deemed to mean "indicated horse power" except in the case of turbine engines. In the latter case it should be "shaft horse power" *plus* 10 per cent

The words "bounty" and "subsidy" have been used in the questionaire with a strict regard to the literal meaning of these terms. Thus "bounty" should be understood to mean a free gift of money by the State for the encouragement of the shipping or shipbuilding industry, and "subsidy" a payment made by Government for the performance of a specific service such as the conveyance of mails.

APPENDIX A.

SHIPBUIDING AND ENGINEERING.

1. What kind of ships or vessels do you build, wood or steel, or both?

giving them under the various headings of staff (in detail), and of their respective trades ?

22. Will you furnish statements as to the number and scope of the machines that you have in your works and supply plans of your shipyards, if you have any ?

23. If you have any plans of proposed new shipyards in India, will you supply them ?

NOTIFICATION.

No. 738L., dated the 15th March, 1923.—The following Bill was introduced in the Bengal Legislative Council on the 14th March, 1923, and is hereby published for information, together with Statement of Objects and Reasons annexed thereto :—

THE CALCUTTA RENT (AMENDMENT) BILL, 1923.

A

BILL

to amend the Calcutta Rent Act, 1920.

WHEREAS it is expedient to amend the Calcutta Rent Act, 1920, so as to provide for its extension for a further period as hereinafter provided ; Ben. Act III of 1920.

And whereas the previous sanction of the Governor General under sub-section (3) of section 80A of the Government of India Act has been obtained to the passing of this Act ; 5 & 6, Geo. V, c. 61 ; 6 & 7, Geo. V, c 37 ; 9 & 10, Geo. V, c. 101.

It is hereby enacted as follows :—

Short title. **1.** (*1*) This Act may be called the Calcutta Rent (Amendment) Act, 1923.

Ben. Act III of 1920.

Amendment of section 1 of Ben. Act III of 1920.

2. In sub-section (4) of section 1 of the Calcutta Rent Act, 1920, for the words "for a period of three years from the date of the commencement of the Act" the words and figures "until the end of March, 1924" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Inquiry has shown that the supply of houses in Calcutta is still short of the demand and, after careful consideration, it is considered desirable to extend the present Calcutta Rent Act, 1920, until the end of next cold weather.

This Act is admittedly imperfect, but, on the whole, it has served its purpose, and as the proposed extension will be for a short period, it is not considered advisable to undertake a complete revision of the Act.

Rent control can only be justified as an emergent measure, and in introducing the Bill the Government desire to place on record their definite opinion that at the end of March, 1924 such control should finally cease.

Amendment of section 137.

38. For clause (4) of section 137 of the said Act the following shall be substituted, namely:—

"(4) for prescribing the form of the abstracts of accounts referred to in clause (a) of section 129 and section 136 and of the accounts referred to in clause (b) of section 129."

Amendment of section 188.

39. To sub-section *(2)* of section 188 of the said Act the following shall be added, namely:— [Cf. Ben. Act III of 1899, s. 559 (18).]

"and

(*h*) prohibiting or regulating the placing of obstructions, projections or encroachments or the depositing of materials, goods or other things or the tethering of animals in a street vested in the Board, or in or over any drain in any such street, or on any land vested in the Board."

Amendment of section 171.

40. In section 171 of the said Act, after the word "building", where it first occurs, the words and brackets "(not being a hut)" shall be inserted.

Amendment of section 5 of the Schedule.

41. In section 5 of the Schedule to the said Act, for the words "upon payment of the cost of acquisition" in section 17A of the Land Acquisition Act, 1894, the words "upon taking possession of the land, forthwith" shall be substituted.

Amendment of section 13 of the Schedule.

42. In section 13 of the Schedule to the said Act, to sub-section *(1)* of section 48A of the Land Acquisition Act, 1894, the following shall be added, namely:—

"Provided that no compensation shall be payable if the proceedings of the Collector are stayed under section 78 of the Calcutta Improvement Act, 1911."

STATEMENT OF OBJECTS AND REASONS.

Proposals to amend the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), were first raised in consequence of the judgment of Mukharji and Cuming, JJ. *in re* Calcutta Improvement Trust *versus* Chandra Kanta Ghosh. holding that the compulsory acquisition of surplus land for recoupment purposes, was not authorized by the Act. A contrary view was taken in a similar injunction suit brought against the Board to restrain it from the acquisition of surplus lands, by a Full Bench of the High Court, and the judgment of Mukharji and Cuming, JJ., was subsequently reversed by the Privy Council.

The amendment of section 42 of the Act might, therefore, appear to be no longer necessary. Other legal difficulties have, however, arisen in administering the Act. The legality of executing improvement schemes in the suburban area outside Municipal Calcutta, unless they are connected with or subserve schemes undertaken in Calcutta, has been questioned. It has again been doubted whether the Trust could provide open spaces as a principal item of improvement instead of merely as a subsidiary part of a general or street improvement scheme. There is reason to believe that the legal powers of the Board do not fall short of those, which the Legislature, as the Council debates indicate, intended to vest in that body, but it is obviously most desirable that any doubts which may still exist, should be definitely removed.

2. The draft Bill in the first place aims at placing the power of the Board to operate in the suburbs and environs of Calcutta beyond all doubt. It was originally intended that the Bill should make specific provision for the improvement of Howrah, but it has now been decided to create a special Trust for Howrah by a separate Bill.

3. Sections 36 *et seq.* have been re-drafted. It has been found that in actually working the Act, no hard-and-fast line can be drawn between a "general improvement scheme" and a "street scheme." The first scheme undertaken by the Trust was styled a "general improvement scheme"; all subsequent schemes have been designated "street schemes." In a city like Calcutta in which building sites are frequently irregular and ill-adapted for their purpose, the opening up of a main thoroughfare inevitably involves the relaying out of a considerable area in the vicinity of the new main artery, and the "street scheme" thus exhibits all the characteristics of a general improvement scheme. This distinction which, so far as Calcutta conditions are concerned, has proved artificial. has, therefore, been abandoned, and the drafting of the important sections of Chapter III has in consequence been simplified. The right of the Corporation to make an official representation is, as before, confined to the case of insanitary areas, whereas the Trust may frame an improvement scheme for any area. The purposes for which an improvement scheme may provide, correspond in the main with those already referred to in the present Act; the Bill, however, permits the provision of open spaces being made the main or principal item of an improvement scheme instead of being merely subsidiary thereto.

4. It is proposed that there should be two distinct stages, covering first, the preparation of preliminary plans and estimates for an improvement scheme, and secondly their final adoption. Preliminary plans and estimates will be submitted as at present to the Local Government, and on receiving their approval, will be forwarded to the Corporation, with detailed engineering plans and specifications for the approval of that body. It will be for the Corporation and the Board to discuss those questions of technical detail, and in the event of their agreement, the plans and estimates will stand finally approved. In the event of a difference of opinion between these two bodies, the orders of the Local Government will be obtained. At present, the General Committee considers the engineering plans and reports to the Corporation; it is considered desirable that in future the plans and estimates should go direct to the Corporation, which would naturally not consider them, until they had been first examined by the Works Committee. The General Committee will, moreover, cease to exist on the enactment of the

Calcutta Municipal Bill, 1921, which is likely to come into force before the present Bill. There has been some difference of opinion between the Corporation and the Board as to the exact liabilities or obligations, which section 65 of the Act imposes upon the Board. The section has been re-drafted so as to provide for the Board supplying such lighting and water-supply adjuncts or apparatus, as the Corporation would themselves ordinarily provide in a street which they had constructed. Provision has also been made for a section of a street being made over to the Corporation under section 65 before the whole thoroughfare included within the scheme has been completed.

5. The words "authorized to acquire" in section 68 when read with section 69 are somewhat ambiguous. The two sections have been combined in one section, to show that the Board may acquire by agreement any land which they may compulsorily acquire.

6. It frequently happens that one of the assessors of the Tribunal is temporarily absent on account of illness or other unavoidable causes; it may, again, sometimes be undesirable that an assessor who is interested in any property in respect of which an order has to be made, should sit on the Tribunal when it is hearing the case. It is suggested that a small panel of qualified persons should be appointed—half of them to be nominated by the Corporation—from whom the Local Government might, without any loss of time, appoint a person to act in place of any assessor, who for one of the reasons already stated may be unable to sit on the bench. It is provided that only a member of the panel who has been nominated by the Corporation, should be appointed in place of the assessor appointed by that body.

7. At present the office rent, contingent expenses, etc., of the President of the Tribunal are paid by the Board and are audited as part of the expenditure of the Board. It is suggested that this procedure has the appearance of depriving the President of his proper independence, and it is therefore, proposed that the President of the Tribunal should each year submit to the Local Government an estimate of his expenditure; which the Local Government may sanction with such modifications as they think necessary, after considering any representation which the Board may make. The Board would then be required to make payments from time to time to the President of the Tribunal, for disbursement in accordance with the sanctioned estimates.

8. Some changes are made in section 78. At present the fees or commutation payments are payable at dates which vary according to the accident of the order in which the Collector takes up the cases; the result is that those owners whose cases are taken up first, are required to make their payments at an earlier date than the more fortunate persons, whose cases are decided later. Under the present Bill, the fee will be payable or the agreement will have to be executed, by a date to be fixed for each scheme by the Local Government, such date to be not less than 4 years from the publication of the notification under section 6 of the Land Acquisition Act. Owners will thus be in a better position to judge whether it is worth their while to pay the exemption fee; it will also be easy on or before the date fixed as above to ascertain the exact area of the land acquired and the land abandoned, which at present it is often impossible to do, as exemption fees are fixed before the line of road has been laid down on the ground. The new section 78 also leaves it open to the Board to arrange with the owner for the payment of the exemption fee by equated annual payments or otherwise; such elasticity will certainly be popular with land-owners.

9. The meaning of section 81 is admittedly uncertain. The Committee recommend that the Act should be amended so as to provide that whenever the Board decide to sell or lease any land they shall, unless they consider that to do so would be detrimental to the carrying out of the purposes of the Act, offer a prior right to take on lease or purchase such land to any person, who formerly had any interest in such land and who, in the opinion of the Board, has a preponderating claim to such land, or if it appears to the Board that no person has such preponderating claim, shall put to auction the right to take on lease or purchase such land among all persons who, previous to its acquisition, had interests in any portion of such land greater than a lease for years having seven years to run.

10. It is proposed to excise from the Act as unnecessary and responsible for confusion sections 120, 121, 124, 127 and 128, which provide for the maintenance of separate Capital and Revenue accounts. The Board has been given a certain sum of money to be spent on works of improvement and, so far as the basis of its finance is concerned, it is immaterial whether its income accrues year by year or is presented to the Trust in a single lump sum. These sections have accordingly been omitted, and the necessary consequential amendments made in sections 122 and 123.

NOTES ON CLAUSES.

Clause 2.—The object of the alteration in the long title and in the preamble to the Act, contained in sub-clause (*2*) of this clause is to make it clear that the Board is to have power to operate in the suburbs and environs of Calcutta.

The proposed addition to the preamble in sub-clause (*2*) of this clause is considered necessary, since the recitals in the preamble in regard to the previous sanction of the Governor-General relate to sanctions granted under enactments which have been subsequently repealed by the Government of India Act.

Clause 3.—The repeal of clause (*f*) of section 2 mentioned in sub-clause (*a*) of clause 3 is owing to the abandonment of the distinction between a general improvement scheme and a street scheme. Sub-clause (*c*) of this clause provides for the repeal of sections 39, 40, 42, 51, 52, 66, 68, 120, 121, 124, 127 and 128 and certain other portions of the Act. It is proposed to repeal sections 39, 40 and 51 owing to the abandonment of the distinction between general improvement schemes and street schemes. The necessary portions of section 39 are reproduced in the new section 36 in clause 8. Section 40 merely states the obvious principles which should guide the Trust, and it is considered unnecessary to give statutory authority to them, apart from the possibilities of raising legal difficulties. The matters dealt with in section 42 are provided for in the new section 41 in clause 10. Such of the provisions of the repealed section 52 as are required are reproduced in clause (*d*) of the proposed new section 41. Section 66 is unnecessary owing to the omission of the references to the General Committee in the modified section 65 in clause 17. Section 68 has been incorporated with section 69 in clause 18 (*2*) of the Bill, for the reason given in paragraph 5 of the Statement of Objects and Reasons. The deletion of sections 120, 121, 124, 127 and 128 is explained in paragraph 10 of the Statement of Objects and Reasons. The repeal mentioned in sub-clause (*d*) of clause 3 is consequential on the repeal of section 66, and the repeal of portions of section 171A dealt with in sub-clause (*e*) of clause 3 is consequential on the amendment in section 63 (*8*) included in clause 16.

Clause 4.—If the legislature decide to amalgamate the Maniktala Municipality with the Calcutta Municipality, as recommended by the Select Committee on the Calcutta Municipal Bill, 1921, the proposed sub-section (*3*) of section 1 will require modification in this respect.

Clause 5.—The proposed sub-section (*3*) in section 9 follows section 7 (*3*) of the Rangoon Development Trust Act, 1920 (Bur. Act V of 1920). Its object is to prevent the loss of the services of a really useful man as Trustee merely by reason of his disqualification under section 9 (*1*) (*e*).

Clause 6.—Valuable time is often wasted in complying with the provisions of section 27, and it is considered advisable to make the section more elastic, as indicated by the proposed sub-section (*5*), so as to allow the Chairman, on the authority of the Board, to exercise a discretion in the matter of calling for tenders under certain circumstances.

Clause 7.—The object of the amendment in clause (*a*) of section 32 is to make the intention more clear.

Clause 8.—As mentioned in paragraph 3 of the Statement of Objects and Reasons the distinction between a "general improvement scheme" and a "street scheme" has been abandoned in section 36 and other sections in Chapter III. The distinction between the obligatory and optional features of an improvement scheme, has also been given up. The section contains the features of a general improvement scheme and a street scheme, as set out in the existing Act.

Clause 9.—The amendment in sub-sections (*1*), (*2*), and (*3*) of section 38 is merely consequential.

Clause 10.—The wording of clause (*a*) of section 41 has been altered with a view to avoid any difficulties as to the acquisition of surplus lands. In clause (*d*) the words "other than sale or hire" have been omitted, as they unnecessarily limit the operations of the Trust. The clause will now cover re-housing, and it has been amplified in this respect. The expression "poorer classes" has been used instead of "poorer and working classes" as in section 52, which is to be repealed, so as to enable the Trust to provide for the poorer *bhadralok*. Clauses (*g*), (*h*), (*i*), and (*j*) amplify the latter portion of the existing clause (*f*). Clause (*k*) corresponds to clause (*b*) in the existing section 42, which it is proposed to repeal. Clause (*l*) amplifies clause (*b*) of section 42. As regards the proposed new clause (*m*) in section 36 it is considered desirable that power be taken to reserve sites for charitable or public institutions, and it is thought that any abuse of this power, such as the allocation of a site *gratis* to a quasi-public institution, can be avoided, since the Trust will have power to refuse pre-emption under section 81 (*2*) (*b*) in cases where sites are required for public purposes. The new clause (*n*) in section 36, in regard to any other matters, is necessary.

Clause 11.—This clause contains a necessary consequential amendment in clause (*a*) of sub-section (*2*) of section 45.

Clause 12.—The new proviso to sub-section (*1*) of section 47, requires the Board to give sixty days' notice to the parties affected, in cases where modifications in a scheme involve the acquisition of properties which were not to be acquired under the original scheme. As regards the proposed amendment in clause (*a*) of sub-section (*2*) of section 47, it is considered desirable that only preliminary plans should go to Government, and that engineering details should be relegated to the detailed plans prepared after Government sanction is obtained, and be settled between the two bodies directly concerned. The amendment in sub-section (*3*) of section 47 is self-explanatory.

Clause 13.—The new section 49A provides for the preparation by the Board, of detailed plans and estimates to be submitted to the Corporation, but not to the Local Government. The provisions of the existing section 50 will prevent any extensive changes in a scheme sanctioned by Government.

Clause 14.—The alterations in the proviso to section 53 are intended to give more elasticity as to the width of streets required. It is not possible to provide 40 feet roads, nor are they necessary, *e.g.*, in areas laid out with small three *cottah* sites of which one-third remains an open space. For areas so laid out a 20 feet road is probably quite adequate, provided that sufficient 40 feet thoroughfares are provided. The existing proviso (*ii*) has been of no real practical utility, since *mehtars*' passages are not needed where there is a sewerage system. In any case the proposed proviso would meet any rare case which might occur.

Clause 15.—Legal difficulties have arisen as to the interpretation of the words "is required for executing any improvement scheme" in sub-section (*1*) of section 54. The words "for the purposes of such scheme" have therefore been used instead, which will cover acquisition for recoupment. It is considered that all land within the scheme area should be made to contribute to its cost, and that the Corporation should not receive preferential treatment in this respect over private owners. As regards the amended sub-section (*2*) of section 54 it seems desirable to provide for Government deciding any dispute, as to what is required for the purposes of a scheme. It is proposed to omit the word "actual" before the word "loss" in sub-section (*1*) of section 54 because it is considered that except in the case of municipal streets and squares required for executing any improvement scheme, the Corporation should receive the actual market price of the property it surrenders, but the word "actual" has a tendency to limit or restrict the word "loss", and is unnecessary.

Clause 16.—It has been provided that the provisions of sub-section (*3*) of section 63, are not to apply to a hut.

Clauses 17, 18, 19, 20, 21 and 24.—The alterations proposed in sections 65, 69, 72, 75, 78 and 81 are indicated in paragraphs 4, 5, 6, 7, 8 and 9, respectively, of the Statement of Objects and Reasons.

Clauses 22 and 23.—The alterations in sections 79 and 80 are consequential on the changes made in section 78.

Clause 25.—The existing section 82 is ambiguous, and the alterations in sub-section (*1*) of this section are intended to remove this ambiguity by stating the articles in Schedule I of the Indian Stamp Act, 1899, which are covered by the sub-section.

Clause 26.—It is thought desirable to make an exception as regards the terminal tax in favour of persons in military employ when travelling on duty. A similar exemption is allowed by the Municipal Board of Benares in the case of military passengers proceeding to Benares on military duty.

Clause 27.—The amendment in sub-section (*3*) of section 88 merely brings up to date the citation of the section of the Calcutta Municipal Act, 1899, referred to. Sub-section (*4*) of section 88 has been altered with a view to make the intention more clear.

Clause 28.—Clause (*a*) of section 89 has been altered owing to the removal of the distinction between the capital and revenue accounts, and there is no reason why the Board should not use the loans it raises for any of the purposes for which it was created.

Clause 29.—The first amendment in section 98 is consequential. The object of the second and third amendments is to permit of loans being issued current till a certain year, and of repayments by the Board commencing at some earlier period by the issue of debentures under the new clause (*c*), the drawings to be so calculated that the payments on account of interest and re-payment of capital may be the same in each half-year.

Clause 30.—The amendment in sections 105 (*1*) and 106 brings up to date the citation of the section of the Calcutta Municipal Act, 1899, referred to.

Clause 31.—It is considered desirable to make it clear in section 115 that the moneys payable to the Board are to be held by them in trust for the purposes of the Act.

Clause 32.—The alteration in section 117 (*2*) is to meet possible cases where it is not convenient for the payments to be made by cheque.

Clauses 33 and 34.—The reasons for the alterations in sections 122 and 123 are indicated in paragraph 10 of the Statement of Objects and Reasons.

Clause 35.—The new section 125 merely reproduces with slight modifications the provisions of sub-section (*2*) of section 125. The omission of the provisions of sub-section (*1*) is due to the abandonment of the distinction between the revenue and capital accounts.

Clause 36.—The amendment contained in this clause is merely verbal and consequential.

Clause 37.—Section 129 has been amplified by the addition of a provision requiring the Board on the completion of a scheme to submit an account showing its net and gross cost.

Clause 38.—The alterations in section 137 (*4*) are consequential.

Clause 39.—The proposed clause (*h*) in sub-section (*2*) of section 138, which is based on clause (*18*) of section 559 of the Calcutta Municipal Act, 1899, will enable the Board to make rules to prevent encroachments. At present nuisances are caused on the land belonging to the Board, *e.g.*, by *gariwans* tethering their cattle or parking their carts on such land, and the only legal remedy of the Trust is by a civil suit. It is impossible for the Trust to fence in all such lands effectively.

Clause 40.—The amendment in section 171 is consequential on the amendment in section 63 (*8*) contained in clause 16.

Clause 41.—The object of the amendment in section 5 of the Schedule to the Act is to make it clear in section 17A of the Land Acquisition Act, 1894, with reference to the payment of rates, that the transfers from the owner to Government and from the Government to the Board should take place simultaneously.

Clause 42.—The proposed proviso in 48A of the Land Acquisition Act, as modified for the purposes of the Calcutta Improvement Act, is considered necessary, in view of the alterations made in section 78, referred to in paragraph 8 of the Statement of Objects and Reasons.

Non-judicial stamps, although transferred to the provinces as a source of revenue, are subject to legislation by the Indian Legislature under Item 20 in Part II of Schedule I of the Devolution Rules.

No. in Schedule I to the Indian Act.	Description.
1	Acknowledgment.
13	Bill of Exchange.
19	Share Certificate.
21	Cheque.
28	Delivery Order in respect of goods.
36	Letter of Allotment of shares.

In February, 1922, Local Governments were asked their views whether any, and if so, which, of the instruments referred to above could bear an enhancement of the existing rates of duty and to what extent. After considering their replies, it has been decided that the duty on certain of these instruments can be raised.

3. The Government of India have also decided to take this opportunity of amending Article 47 of Schedule I of the Stamp Act so as to bring under clause B of the Article certain classes of insurance which have hitherto, for the purposes of stamp duty, been taken under clause D. This amendment has been supported by all Local Governments.

4. The object of the present Bill is to give effect to these proposals.

RECOMMENDATIONS OF THE RETRENCHMENT COMMITTEE IN REGARD TO THE ABOLITION OF PERMANENT POSTS.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 16TH MARCH 1923.

RESOLUTION—No. 3108A.

The Government of Bengal have considered the observations of the Retrenchment Committee contained in paragraph 460 of their report on the position of permanent servants of Government whose posts it may be decided to abolish.

The Committee emphasise the inherent right of Government to discharge superfluous permanent staff and point out that there is an article, 436, in the Civil Service Regulations which prescribes the action to be taken when this right is exercised and confers certain privileges on the discharged staff. I

is necessary in the public interests to maintain this right, but it is desirable in view of the anxiety naturally caused to a considerable number of Government servants by the possible results of the acceptance of the Committee's proposals to announce the course of action that Government propose generally to adopt.

Rule 56 (*a*) of the Fundamental Rules prohibits generally extensions of service beyond the age of 55 except on clear grounds of public interests and this rule will be strictly followed. Rule 56 (*b*) allows ministerial officers ordinarily to continue in service up to the age of 60. In the extraordinary conditions now prevailing no further extensions beyond the age of 55 will be allowed except with the express orders of Government. Government further reserve the right to call upon officers who are near the end of their services to retire on pension if that is considered desirable to enable the Committee's recommendations to be carried out. No question arises in the case of temporary staff, and in the case of permanent servants where the period of service has been so short as not materially to affect the chance of obtaining other employment, or where the possession of technical qualifications makes the obtaining of other employment comparatively easy, Government will exercise the right of reducing establishment on such terms as may appear equitable. In all other cases an endeavour will be made to provide the surplus officers with other suitable employment under Government, though no guarantee can be given that such employment will be the exact equivalent of the appointment abolished, and in considering the time at which effect will be given to the recommendations of the Retrenchment Committee regard will be had to the possibility of providing employment for such surplus officers. In order to make such provision a list will be maintained in the Appointment Department of officers whose services will be dispensed with and no permanent appointment under Government will be filled without consideration whether it is possible to utilise it for the absorption of an officer whose name is on this list of surplus officers. If it is found necessary to fill up a vacancy for which a suitable surplus officer is not immediately available it will be filled temporarily only, unless Government decide that owing to the nature of the appointment there is no chance of absorbing in it an officer already in Government employ whose services are immediately available or are likely to be so in the near future.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette* and that copies of it be forwarded to all Commissioners of Divisions for information and for communication to officers subordinate to them.

Ordered also that copies of the Resolution be forwarded to the several departments of Government for information and for communication to heads of departments and other officers subordinate to them.

Ordered also that a copy of the Resolution be forwarded to the Accountant-General, Bengal, for information.

By order of the Governor in Council,

L. BIRLEY,

Chief Secretary to the Government of Bengal.

Provided, further, that, until the expiration of twelve months from the commencement of this Act, nothing in this section shall be deemed to prohibit the use of any boiler in any local area in which the registration of, or a certificate or licence for the use of, a boiler was not previously required by law.

(5) On the said date the Inspector shall examine the boiler in the prescribed manner, and if he is satisfied that the boiler and the steam-pipe or steam-pipes attached thereto are in good condition shall issue a renewed certificate authorising the use of the boiler for such period not exceeding twelve months and at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act :

Provided that if the Inspector—

(a) proposes to issue any certificate—
(i) having validity for a less period than the period entered in the application, or

Provisional orders.

9. Where the Inspector reports the case of any boiler to the Chief Inspector under sub-section (3) of section 7 or sub-section (5) of section 8, he may, if the boiler is not a boiler the use of which has been prohibited under clause (*f*) of sub-section (*1*) of section 8, grant to the owner thereof a provisional order in writing permitting the boiler to be used at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act, pending the receipt of the orders of the Chief Inspector. Such provisional order shall cease to be in force—

(*b*) if the boiler in respect of which it has been granted has sustained injury or has ceased to be in good condition; or

(*c*) where the Local Government has made rules requiring that boilers shall be in charge of persons holding certificates of competency, if the boiler is in charge of a person not holding the certificate required by such rules; or

(*d*) where no such rules have been made, if the boiler is in charge of a person who is not, having regard to the condition of the boiler, in the opinion of the Chief Inspector competent to have charge thereof:

Provided that where the Chief Inspector withdraws or revokes a certificate or provisional order on the ground specified in clause (*d*), he shall communicate to the owner of the boiler his reasons in writing for the withdrawal or revocation, and the order shall not take effect until the expiry of thirty days from the receipt of such communication.

CHAPTER II.

WORKMEN'S COMPENSATION.

Employer's liability for compensation.

3. (1) If personal injury is caused to a workman by accident arising out of and in the course of his employment, his employer shall be liable to pay compensation in accordance with the provisions of this Chapter;

Provided that the employer shall not be so liable—

(a) in respect of any injury which does not result in the total or partial disablement of the workman for a period exceeding ten days;

(b) in respect of any injury to a workman resulting from an accident which is directly attributable to—

(i) the workman having been at the time thereof under the influence of drink or drugs, or

(ii) the wilful disobedience of the workman to an order expressly given, or to a rule expressly framed, for the purpose of securing the safety of workmen, or

(iii) the wilful removal or disregard by the workman of any safety guard or other device which he knew to have been provided for the purpose of securing the safety of workmen; or

(c) except in the case of death or permanent total disablement, in respect of any workman employed in the construction, repair or demolition of a building or bridge.

(2) If a workman employed in any employment involving the handling of wool, hair, bristles, hides or skins contracts the disease of anthrax, or if a workman whilst in the service of an employer in whose service he has been employed for a continuous period of not less than six months in any employment specified in Schedule III, contracts any disease specified therein as an occupational disease peculiar to that employment, the contracting of the disease shall be deemed to be an injury by accident within the meaning of this section and, unless the employer proves the contrary, the accident shall be deemed to have arisen out of and in the course of the employment.

Explanation.—For the purposes of this sub-section a period of service shall be deemed to be continuous which has not included a period of service under any other employer.

(3) The Governor General in Council, after giving, by notification in the Gazette of India, not less than three months' notice of his intention so to do, may, by a like notification, add any description of employment to the employments specified in Schedule III, and shall specify in the case of the employments so added the diseases which shall be deemed for the purposes of this section to be occupational diseases peculiar to those employments respectively, and the provisions of sub-section (2) shall thereupon apply as if such diseases had been declared by this Act to be occupational diseases peculiar to those employments.

(4) Save as provided by sub-sections (2) and (3), no compensation shall be payable to a workman in respect of any disease unless the disease is solely and directly attributable to a specific injury by accident arising out of and in the course of his employment.

(5) Nothing herein contained shall be deemed to confer any right to compensation on a workman in respect of any injury if he has instituted in a Civil Court a suit for damages in respect of the injury against the employer or any other person; and no suit for damages shall be maintainable by a workman in any Court of law in respect of any injury—

(a) if he has instituted a claim to compensation in respect of the injury before a Commissioner; or

(b) if an agreement has been come to between the workman and his employer providing for the payment of compensation in respect of the injury in accordance with the provisions of this Act.

Amount of compensation.

4. (1) Subject to the provisions of this Act, the amount of compensation shall be as follows, namely:—

A. Where death results from the injury—

(i) in the case of an adult, a sum equal to thirty months' wages or two thousand five hundred rupees, whichever is less, and

(ii) in the case of a minor, two hundred rupees;

B. Where permanent total disablement results from the injury—

(i) in the case of an adult, a sum equal to forty-two months' wages or three thousand five hundred rupees, whichever is less; and

(ii) in the case of a minor, a sum equal to eighty-four months' wages or three thousand five hundred rupees, whichever is less;

C. Where permanent partial disablement results from the injury—

(i) in the case of an injury specified in Schedule I such percentage of the compensation which would have been payable in the case of permanent total disablement as is specified therein as being the percentage of the loss of earning capacity caused by that injury, and

(ii) in the case of an injury not specified in Schedule I, such percentage of the compensation payable in the case of permanent total disablement as is proportionate to the loss of earning capacity permanently caused by the injury;

Explanation.—Where more injuries than one are caused by the same accident, the amount of compensation payable under this head shall be aggregated but not so in any case as to exceed the amount which would have been payable if permanent total disablement had resulted from the injuries.

D. Where temporary disablement, whether total or partial, results from the injury, a half-monthly payment payable on the sixteenth day after the expiry of a waiting period of ten days from the date of the disablement, and thereafter half-monthly during the disablement or during a period of five years, whichever period is shorter,—

(i) in the case of an adult, of fifteen rupees or a sum equal to one-fourth of his monthly wages, whichever is less, and

(ii) in the case of a minor, of a sum equal to one-third or, after he has attained the age of fifteen years, to one-half of his monthly wages, but not exceeding in any case fifteen rupees:

Provided that there shall be deducted from any lump sum or half-monthly payments to which the workman is entitled the amount of any payment or allowance which the workman has received from the employer by way of compensation during the period of disablement prior to the receipt of such lump sum or of the first half-monthly payment, as the case may be, and no half-monthly payment shall in any case exceed the amount, if any, by which half the amount of the monthly wages of the workman before the accident exceeds half the amount of such wages which he is earning after the accident.

(2) On the ceasing of the disablement before the date on which any half-monthly payment falls due, there shall be payable in respect of that half-month a sum proportionate to the duration of the disablement in that half-month.

Method of calculating wages.

5. For the purposes of section 4 the monthly wages of a workman shall be calculated as follows, namely :—

(a) Where the workman has, during a continuous period of not less than twelve months immediately preceding the accident, been in service of the employer who is liable to pay compensation, the monthly wages of the workman shall be one-twelfth of the total wages which have fallen due for payment to him by the employer in the last twelve months of that period ;

(b) in other cases, the monthly wages shall be thirty times the total wages earned in respect of the last continuous period of service immediately preceding the accident from the employer who is liable to pay compensation, divided by the number of days comprising such period :

Provided that the sum arrived at by a calculation under clause (a) or clause (b) shall be increased or decreased, as the case may be, to the amount specified in the second column of Schedule IV against the head specified in the first column thereof within the limits of which such sum is included.

Explanation.—A period of service shall, for the purposes of this section, be deemed to be continuous which has not been interrupted by a period of absence from work exceeding fourteen days.

Review.

6. (1) Any half-monthly payment payable under this Act, either under an agreement between the parties or under the order of a Commissioner, may be reviewed by the Commissioner on the application either of the employer or of the workman accompanied by the certificate of a qualified medical practitioner that there has been a change in the condition of the workman or, subject to rules made under this Act, on application made without such certificate.

(2) Any half-monthly payment may, on review under this section, subject to the provisions of this Act, be continued, increased, decreased or ended, or, if the accident is found to have resulted in permanent disablement, be converted to the lump sum to which the workman is entitled less any amount which he has already received by way of half-monthly payments.

Commutation of half-monthly payments.

7. Any right to receive half-monthly payments may, by agreement between the parties or, if the parties cannot agree and the payments have been continued for not less than six months, on the application of either party to the Commissioner, be redeemed by the payment of a lump sum of such amount as may be agreed to by the parties or determined by the Commissioner, as the case may be.

Distribution of compensation.

8. (1) Compensation payable in respect of a workman whose injury has resulted in death shall be deposited with the Commissioner, and any sum so deposited shall be apportioned among the dependants of the deceased workman or any of them in such proportion as the Commissioner thinks fit, or may, in the discretion of the Commissioner, be allotted to any one such dependant, and the sum so allotted to any

dependant shall be paid to him or, if he is a person under any legal disability, be invested, applied or otherwise dealt with for his benefit during such disability in such manner as the Commissioner thinks fit.

(*2*) Any other compensation payable under this Act may be deposited with the Commissioner and, when so deposited, shall be paid by the Commissioner to the person entitled thereto.

(*3*) The receipt of the Commissioner shall be a sufficient discharge in respect of any amount deposited with him under sub-section (*1*) or sub-section (*2*).

(*4*) On the deposit of any money under sub-section (*1*), the Commissioner may deduct therefrom the actual cost of the workman's funeral expenses, to an amount not exceeding fifty rupees, and pay the same to the person by whom such expenses were incurred, and shall, if he thinks necessary, cause notice to be published or to be served on each dependant in such manner as he thinks fit, calling upon the dependants to appear before him on such date as he may fix for determining the distribution of the compensation. If the Commissioner is satisfied, after any inquiry which he may deem necessary, that no dependant exists, he shall repay the balance of the money to the employer by whom it was paid. The Commissioner shall, on application by the employer, furnish a statement showing in detail all disbursements made.

(*5*) Where a half-monthly payment is payable under this Act to a person under any legal disability, the Commissioner may, of his own motion or on application made to him in this behalf, order that the half-monthly payment be paid during the disability to any dependant of the workman or to any other person whom he thinks best fitted to provide for the welfare of the workman.

(*6*) Where, on application made to him in this behalf or otherwise, the Commissioner is satisfied that, on account of neglect of children on the part of a parent or on account of the variation of the circumstances of any dependant or for any other sufficient cause, an order of the Commissioner as to the distribution of any sum paid as compensation or as to the manner in which any sum payable to any such dependant is to be invested, applied or otherwise dealt with, ought to be varied, the Commissioner may make such orders for the variation of the former order as he thinks just in the circumstances of the case :

Provided that no such order prejudicial to any person shall be made unless such person has been given an opportunity of showing cause why the order should not be made, or shall be made in any case in which it would involve the repayment by a dependant of any sum already paid to him.

Compensation not to be assigned, attached or charged.

9. Save as provided by this Act, no lump sum or half-monthly payment payable under this Act shall in any way be capable of being assigned or charged or be liable to attachment or pass to any person other than the workman by operation of law, nor shall any claim be set off against the same.

Notice and claim.

10. (*1*) No proceedings for the recovery of compensation shall be maintainable before a Commissioner unless notice of the accident has been given, in the manner hereinafter provided, as soon as practicable after the happening thereof and before the workman has voluntarily left the employment in which he was injured, and unless the claim for compensation with respect to such accident has been instituted within six months of the occurrence of the accident or, in case of death, within six months from the date of death :

Provided that, where the accident is the contracting of a disease in respect of which the provisions of sub-section (*2*) of section 3 are applicable, the accident shall be deemed to have occurred on the first of the days during which the workman was continuously absent from work in consequence of the disablement caused by the disease :

Provided, further, that the Commissioner may admit and decide any claim to compensation in any case notwithstanding that the notice has not been given, or the claim has not been instituted, in due time as provided in this sub-section, if he is satisfied that the failure so to give the notice or institute the claim, as the case may be, was due to sufficient cause.

(2) Every such notice shall give the name and address of the person injured and shall state in ordinary language the cause of the injury and the date on which the accident happened, and shall be served on the employer or upon any one or several employers, or upon any person directly responsible to the employer for the management of any branch of the trade or business in which the injured workman was employed.

(3) The notice may be served by delivering the same at, or sending it by registered post addressed to, the residence or any office or place of business of the person on whom it is to be served.

Medical examination.

11. (1) Where a workman has given notice of an accident, he shall, if the employer, before the expiry of three days from the time at which service of the notice has been effected, offers to have him examined free of charge by a qualified medical practitioner, submit himself for such examination, and any workman who is in receipt of a half-monthly payment under this Act shall, if so required, submit himself for such examination from time to time:

Provided that a workman shall not be required to submit himself for examination by a medical practitioner otherwise than in accordance with rules made under this Act, or at more frequent intervals than may be prescribed.

(2) If a workman, on being required to do so by the employer under sub-section (1) or by the Commissioner at any time, refuses to submit himself for examination by a qualified medical practitioner or in any way obstructs the same, his right to compensation shall be suspended during the continuance of such refusal, or obstruction unless, in the case of refusal, he was prevented by any sufficient cause from so submitting himself.

(3) If a workman, before the expiry of the period within which he is liable under sub-section (1) to be required to submit himself for medical examination, voluntarily leaves without having been so examined the vicinity of the place in which he was employed, his right to compensation shall be suspended until he returns and offers himself for such examination.

(4) Where a workman, whose right to compensation has been suspended under sub-section (2) or sub-section (3), dies without having submitted himself for medical examination as required by either of those sub-sections, the Commissioner may, if he thinks fit, direct the payment of compensation to the dependants of the deceased workman.

(5) Where under sub-section (2) or sub-section (3) a right to compensation is suspended, no compensation shall be payable in respect of the period of suspension, and if the period of suspension commences before the expiry of the waiting period referred to in clause (D) of sub-section (1) of section 4, the waiting period shall be increased by the period during which the suspension continues.

(6) Where an injured workman has refused to be attended by a qualified medical practitioner whose services have been offered to him by the employer free of charge or having accepted such offer has deliberately disregarded the instructions of such medical practitioner, then, if it is thereafter proved that the workman has not been regularly attended by a qualified medical practitioner and that such refusal, failure or disregard was unreasonable in the circumstances of the case and that injury has been aggravated thereby, the injury and resulting disablement shall be deemed to be of the same nature and duration as they might reasonably have been expected to be if the workman had been regularly attended by a qualified medical practitioner, and compensation, if any, shall be payable accordingly.

Contracting.

12. (1) Where any person (hereinafter in this section referred to as the principal) in the course of or for the purposes of his trade or business contracts with any other person (hereinafter in this section referred to as the contractor) for the execution by or under the contractor of the whole or any part of any work which is ordinarily part of the trade or business of the principal, the principal shall be liable to pay to any workman employed in the execution of the work any compensation which he would have been liable to pay if that

workman had been immediately employed by him; and where compensation is claimed from the principal, this Act shall apply as if references to the principal were substituted for references to the employer except that the amount of compensation shall be calculated with reference to the wages of the workman under the employer by whom he is immediately employed.

(2) Where the principal is liable to pay compensation under this section, he shall be entitled to be indemnified by the contractor, and all questions as to the right to and the amount of any such indemnity shall, in default of agreement, be settled by the Commissioner.

(3) Nothing in this section shall be construed as preventing a workman from recovering compensation from the contractor instead of the principal.

(4) This section shall not apply in any case where the accident occurred elsewhere than on, in or about the premises on which the principal has undertaken or usually undertakes, as the case may be, to execute the work or which are otherwise under his control or management.

Remedies of employer against stranger.

13. Where a workman has recovered compensation in respect of any injury caused under circumstances creating a legal liability of some person other than the person by whom the compensation was paid to pay damages in respect thereof, the person by whom the compensation was paid and any person who has been called on to pay an indemnity under section 12 shall be entitled to be indemnified by the person so liable to pay damages as aforesaid.

Insolvency of employer.

14. (1) Where any employer has entered into a contract with any insurers in respect of any liability under this Act to any workman, then in the event of the employer becoming insolvent or making a composition or scheme of arrangement with his creditors or, if the employer is a company, in the event of the company having commenced to be wound up, the rights of the employer against the insurers as respects that liability shall, notwithstanding anything in any law for the time being in force relating to insolvency or the winding up of companies, be transferred to and vest in the workman and upon any such transfer the insurers shall have the same rights and remedies and be subject to the same liabilities as if they were the employer, so, however that the insurers shall not be under any greater liability to the workman than they would have been under to the employer.

(2) If the liability of the insurers to the workman is less than the liability of the employer to the workman, the workman may prove for the balance in the insolvency proceedings or liquidation.

(3) Where in any case such as is referred to in sub-section (1) the contract of the employer with the insurers is void or voidable by reason of non-compliance on the part of the employer with any terms or conditions of the contract (other than a stipulation for the payment of premia), the provisions of that sub-section shall apply as if the contract were not void or voidable, and the insurers shall be entitled to prove in the insolvency proceedings or liquidation for the amount paid to the workman;

Provided that the provisions of this sub-section shall not apply in any case in which the workman fails to give notice to the insurers of the happening of the accident and of any resulting disablement as soon as practicable after he becomes aware of the institution of the insolvency or liquidation proceedings.

(4) There shall be deemed to be included among the debts which under section 49 of the Presidency-towns Insolvency Act, 1909, or under section 61 of the Provincial Insolvency Act, 1920, or under section 230 of the Indian Companies Act, 1913, are in the distribution of the property of an insolvent or in the distribution of the assets of a company being wound up to be paid in priority to all other debts, the amount due in respect of any compensation the liability wherefor accrued before the date of the order of adjudication of the insolvent or the date of the commencement of the winding up, as the case may be, and those Acts shall have effect accordingly.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 24th February, 1923 :—

No. 10 OF 1923.

A Bill to amend the Indian Income-tax Act, 1922.

WHEREAS it is expedient to amend the Indian Income-tax Act, 1922 ; It is hereby enacted as follows :— XI of 1922.

Short title.

1. This Act may be called the Indian Income-tax (Amendment) Act, 1923.

Amendment of section 7, Act XI of 1922.

2. To sub-section (*1*) of section 7 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), the following explanation shall be added, namely :— XI of 1922.

"*Explanation.*—The right of a person to occupy free of rent as a place of residence any premises provided by his employer is a perquisite for the purposes of this sub-section."

Amendment of section 68, Act XI of 1922.

3. (*1*) In section 68 of the said Act, in the second proviso, after the words "under that Act" the words "or under the Super-tax Act, 1920" shall be inserted and for the words and figures "section 19 of the said Act" the words "that section" shall be substituted.

(*2*) The amendments made in the said Act by sub-section (*1*) shall have effect as if they had been made on the 1st day of April, 1922.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to correct the drafting of the Income-tax Act of 1922 in two sections, in which it has been found that the wording of the Act as passed did not give correct effect to the intensions of the Legislature.

2. It was intended when the Act was framed that the perquisite enjoyed by a person in the shape of a rent-free residence should be assessed to income-tax. It has, however, been found that as section 7 (*1*) of the Act at present stands, a rent-free residence still cannot be taxed. Clause 2 of this Bill gives effect to the intentions of the Legislature.

3. As proviso (2) to section 68 of the Act of 1922 at present strands, it has kept alive for 1922-23 only the adjustments of the assessments of income-tax made in 1921-22, but the intention when the Act of 1922 was framed was to continue the "adjustment system" mentioned in section 19 of the Income-tax Act, 1918 (VII of 1918), both as regards income-tax and super-tax. Clause 3 of the Bill gives effect to that intention.

Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to provide the additional revenue referred to in my speech introducing the Budget for 1923-24 and to continue certain provisions of the Indian Finance Act, 1922 (XII of 1922) which would otherwise cease to have effect from the 1st April 1923.

2. Clause 2 of the Bill provides for the raising of the salt duty from Re. 1-4 to Rs. 2-8 per maund.

3. Opportunity has been taken to make certain minor amendments in the Tariff Schedule necessitated by administrative reasons. These are embodied in clause 3 (*1*). The substantive changes made are :—

(1) The adoption of a new definition of "Machinery and its component parts" and consequential changes in the entries relating to railway and building materials, ships, etc.

(2) The raising of the duty on saccharine.

(3) The withdrawal of the concessional rate in respect of tea chests and of lead therefor.

Clause 3 (*2*) reduces the export duty on raw hides and skins from 15 to 5 per cent. *ad valorem* and dispenses with the system of rebates.

4. Clauses 4 and 6 provide for the continuance of the rates of postage, income-tax and super-tax prescribed by the Indian Finance Act (XII of 1922) while clause 5 provides for the credit to revenue, for a further period of one year, *i.e.*, till the 31st March 1924, of interest on securities forming part of the Paper Currency Reserve.

5. The changes mentioned in paragraphs 2 and 3 are intended to come into effect from the 1st March 1923; the rest from April 1st. The Bill provides that the provisions other than those relating to the tariff shall remain in force till the 31st March 1924.

The lands were acquired for these purposes, and the cost of acquisition of land amounting to Rs. 2,265-0-8 had to be paid during that year. Contributions from Government grants placed at the disposal of the Divisional Commissioner and the Collector of the district for local works of improvement were expected to be received to these projects, as assurance was given by the District Authorities. Accordingly Rs. 1,500 was allotted in the Budget of that year as Government contribution, which met the approval of the authorities. But nothing was received. The Municipality was therefore put to great financial difficulty. As the payment of Rs. 2,265 was not an ordinary expenditure but of special circumstances it may not be taken into account in finding out the normal average surplus of these three years. If this sum of Rs. 2,265 be deducted from the ordinary expenditure than the normal average surplus comes up to Rs. 291-6-0. Again this average surplus should not be taken into consideration as the financial condition of the Municipality has been greatly changed by the revision of assessment of 1922 which has come into force from the beginning of the year 1922-23, by the enhancement of the rate of taxation of the personal tax from Re. 1 to Re. 1-2-0 per cent.

In addition to the details required on the reverse, clear information be given below under the following heads :—

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken or has agreed to take in order to make good deficiency.	The general revision of assessment of both the personal tax and latrine rate was made which has come into force from the beginning of the current year (1922-23). At this revision the rate of personal tax has been enhanced from Re. 1 to Rs. 1-2-0 per cent. And net increase of income only from these taxes and rates after the decision of the Review Committee has arrived at Rs. 4,049.
(b) The reserve of taxation or other possible means of increase in the revenue of the municipality.	Ditto, and the income has also been increased on the revision of scale of fees on the offensive and dangerous trades under section 26 of the Bengal Municipal Act.
(c) A statement of all outstanding loans, specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.	There is no other loan of the municipality.
(d) Any explanation in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	The income of the municipality having been greatly increased by the enhancement of the rate of taxation as stated against (a) and (b) above the financial position has now become highly satisfactory. And the ordinary surplus shewn in the reverse which was also due to exceptional circumstances as stated in the remark column No. 21 cannot be taken into consideration in determining the present financial position of the municipality as it has already lost its effect after the revision of assessment.

ESTIMATES AND ACCOUNTS.

No. 562-F.—The following statement is published for general information :—

A statement by His Excellency the Governor General of the reasons which moved him to pass an order under section 67B of the Government of India Act for certification of the Indian Finance Bill as originally introduced in the Legislative Assembly, providing for an increase in the existing salt duty for one year, (*i.e.*) till the 31st March 1924, to a rate of Rs. 2-8 a maund.

E. M. COOK,

Secretary to the Government of India.

STATEMENT.

In the course of the debates on the Finance Bill I was deeply concerned to find that I and my Government were in disagreement with the majority of the Legislative Assembly in regard to the necessity of imposing an increase in the salt tax from Re. 1-4 to Rs. 2-8 per maund in order to balance the budget and produce financial equilibrium. The Bill as introduced with this provision was not passed by the Legislative Assembly in the form proposed by my Government. It was recommended by me, in the original form proposed to the Council of State where it was passed by a majority of 18 votes. It was returned to the Legislative Assembly in the form recommended to the Council of State and rejected by a majority of 11 votes. I have a high respect for the convictions of the Legislative Assembly, but after careful consideration I find I cannot subscribe to them ; and I have decided to exercise the special powers with which I have been invested by His Majesty's Government under the provisions of section 57B of the Government of India Act and to certify the Bill. I have arrived at this decision after much anxious thought and deliberation and I desire to make clear my reasons for taking this action.

Ever since I came to India and learnt the financial conditions I have been deeply impressed by the imperative necessity of placing India's finances on a sound basis and have kept this object continually in view. The first budget after my arrival was that of 1922-23. I then learnt that there had been cumulative deficits in the four preceding years totalling 90 crores. Heavy increases of taxation had been imposed by my predecessor's Government in 1921-22 in order to balance the budget. Taxation had again to be enhanced by my Government in 1922-23 and an increase was also made in the postal and railway charges. It will be remembered that at that time my Government also proposed to double the salt duty. The Legislative Assembly rejected this proposal ; I accepted their decision and did not certify the necessary legislation for the purpose. Without dwelling in detail on my reasons it will suffice to mention (*a*) that my Government were deeply impressed with the need urged by the Legislature for retrenchment in both military and civil expenditure as a necessary step to precede any further taxation of this nature ; (*b*) that food prices were then high and wheat in particular exceptionally high. When we came to frame the budget of the present year we found that notwithstanding the admirable work accomplished by Lord Inchcape and his Committee, and after making very far-reaching reductions in expenditure, we had again to face a deficit not so large indeed as last year, but nevertheless amounting to nearly four crores. We have striven our utmost to restore equilibrium by scrutiny of estimates of revenue and expenditure but have failed. Speaking with all the responsibility falling on me and my Government I am convinced that the position cannot be ameliorated by any addition however tempting in appearance to revenue or by any deduction from expenditure.

My Government held that in view of the past accumulated deficits it was essential in the interests of India to balance its budget. It had every reason to look for the support of the public and the Legislature in this view. Ever since my arrival in this country the Legislature, all sections of the press and public men in deputations, addresses, and speeches have insistently urged on me the vital necessity of securing financial equilibrium. In addition representations had persistently been made that the Government of India should balance its budget in order that it might begin to remit the contributions of 9¼ crores from the provincial Governments to the Government of India, a matter vitally important to the progress of those departments which have, under the Reforms Scheme, been committed to the charge of Ministers.

The rehabilitation of India's credit by presenting a balanced budget was not a measure which could be delayed. The need for large capital funds for material development obliges the Indian Government to enter the money market for considerable sums both in England and India ; it would be in the highest degree unfortunate if it had been obliged to present a deficit for the sixth year in succession, and when the circumstances

no longer permitted a hope that the deficit was purely temporary or was one which would yield to a determined effort at retrenchment. Reductions have been made in military charges which seemed incredible a year ago. The Government of India have stated that in making these reductions we are taking military risks, but we feel that we are justified by the financial stringency. His Majesty's Government have agreed in principle to the reductions. In the civil departments similar retrenchments of a far-reaching character have been accepted. If after making these efforts we still had to present a deficit, there was every possibility that the fact would react on our position as a borrower. Our hopes for a gradual reduction in our interest charges would be frustrated with results damaging not only to India's progress as a country, but to every industrial and trading interest in the land. The provinces have now their own commitments for capital expenditure on their material development. Their interests would suffer even more severely than those of the Central Government in proportion as their resources are more limited.

The most careful and anxious consideration was given to the possibility of finding an alternative to the salt tax as a means of raising the additional revenue necessary to attain equilibrium. No alternative presented itself to Government nor indeed, when the matter came to be discussed, to the Legislature. The reason is obvious. Those engaged in trade and industry have had laid upon them heavy increases in taxation during recent years. Postal and railway rates have been enhanced. The burden thus placed on commerce and industry will require time for adjustment, and further taxation in these directions would have failed to provide the sum required. I have myself given most careful consideration to the objections which appear to exist against the enhancement of the salt tax whether on economic grounds or those of sentiment. The tax is said to have historic unpopularity; but it existed before British rule. In the period from 1861-1877 it stood in Northern India at Rs. 3. In 1878 the rate was Rs 2-12. From 1879-1881 and again from 1888-1902 it stood at Rs. 2-8-0 and since 1916 it has been at Rs. 1-4-0. The objection is thus not to the tax itself but to its present enhancement. Every increase in the rate of a tax is unpopular; yet it must be remembered that it has been collected in the ordinary way at the enhanced rate throughout British India since the 1st of March of this year. The economic arguments against the tax appear to stand on shadowy foundations. Perhaps never in the recent history of India has there been a year in which such enhancement will press more lightly on the poor. Wages are still on a favourable basis; but prices of food-stuffs have markedly fallen and with the abundant promise of a rich harvest around us may be expected to decrease still further. Even a slight fall in the price of food-stuffs is of great importance to the poor family. The mill labourer is shown to spend approximately 56 per cent. of his income on food and of this amount salt represents only two-fifths of 1 per cent. The increase in salt tax must have an infinitesimal effect at a period such as this; prices of food grains fell by 20 per cent. between October 1921 and December 1922; between January 1922 and 1923 retail prices of wheat fell by 100 per cent. in important centres of Northern India.

These considerations were duly laid before the Legislative Assembly. That body had from the first admitted in principle the paramount necessity of balancing the budget. Many of the members had emphasised the need of regaining equilibrium as a necessary preliminary to fulfilling our obligations in regard to the gradual reduction of provincial contributions; and it is indeed obvious that no step in this direction can be taken so long as the finances of the Central Government are in deficit. The Assembly was unable to agree on the adoption of any alternative form of taxation which would secure the full amount required. Nevertheless, it rejected the proposal for an enhancement of the salt tax. It was in these circumstances that it became my duty to certify the measure. It must be clearly understood that my action merely imposes an enhancement of the tax until March 31st, 1924, when the matter must again come before the Legislature. It will then have had a year's experience of the operation of the tax, and it will be in a position to determine whether, in view of the condition of the country and having regard to our obligations to the provinces, it will vote for its retention.

I hold strict views regarding the exercise of my special powers; their use can only be justified, in the words of the Government of India Act, when it is essential for the interests of British India. This requirement has throughout been present to my mind. In the present case the interests of India only and no other interests are in question. A balanced budget is absolutely essential to her interests at the present time, and I believe that it is my duty to take the necessary action to secure this in the discharge of the responsibility placed upon me as Governor General by the Imperial Parliament.

It may be that the scheme of reforms introduced by the Government of India Act will be attacked on account of the action taken by me. This would be unfortunate and could only be due to misapprehension; for the constitution is embodied in the Act, and I do not believe that there is any substantial difference as regards the meaning of the important provisions under which I am acting. Unbalanced budgets appear to me to involve dangers to the future of India perhaps inherently greater than any constitutional or political issue, while their immediate effect is to stifle the development in the provision of all those beneficent activities, *e.g.*, Education, Public Health, Industry, which should be the first fruits of the reforms. I am convinced therefore that my action will prove of ultimate benefit in the development of the reforms and the advancement of India and for these I shall continue to labour in the discharge of the high responsibilities entrusted to me as Governor General.

10. The Government Inspector shall, as far as possible, assist any Magistrate making an enquiry under rule 20 or a judicial enquiry, whenever he may be called upon to do so.

11. Nothing in these rules shall be deemed to limit or otherwise affect the exercise of any of the powers conferred on Government Inspectors by section 5 of the Indian

Duties of the Agent or Manager, and of the Head of the Department concerned.

12. Whenever any accident has occurred in the course of working a railway, the Agent or Manager shall give all reasonable aid to the District Magistrate or the Magistrate appointed or deputed under rule 20, and to the Government Inspector, Medical Officers, the police, and others concerned, to enable them promptly to reach the scene of the accident, and shall assist those authorities in making enquiries and in obtaining evidence as to the cause of the accident.

16. Whenever the report of the Government Inspector points to the necessity for or suggests a change in any of the rules or in the system of working, the Agent or Manage shall, when acknowledging the report, intimate the action which has been taken, or which it is proposed to take, to prevent a recurrence of similar accidents, or shall inform the Government Inspector of his intention to report further on the Government Inspector's proposals.

17. (1) Whenever an accident, such as is described in section 83 of the Indian Railways Act, 1890, has occurred in the course of working a railway, the Agent or Manager shall cause an enquiry to be promptly made by a committee of railway officers (to be called a "joint enquiry") for the thorough investigation of the causes which led to the accident: (IX of 1890.)

Provided that such enquiry may be dispensed with—

(*a*) if an enquiry is to be held by the Government Inspector under rule 6;

(*b*) if the accident has not been attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or

(*c*) if there is no reasonable doubt as to the cause of the accident; or

(*d*) if one department of the railway intimates that it accepts all responsibility in the matter.

(2) Where such enquiry is dispensed with, it shall be the duty of the head of the department of the railway responsible for the accident to make such enquiry (to be called a "departmental enquiry") as he may consider necessary, and if his staff or the system of working is at fault, to adopt or suggest such measures as he may consider expedient for preventing a recurrence of similar accidents.

18. (1) Whenever a joint enquiry is to be made, the Agent or Manager shall cause notice of the date and hour at which the enquiry will commence to be given to the following officers, namely:—

(*a*) the District Magistrate of the district in which the accident occurred, or such other officer as the Local Government may appoint in this behalf, the Superintendent of Railway Police and the District Superintendent of Police;

(*b*) the Government Inspector appointed under sub-section (1) of section 4 of the Indian Railways Act, 1890, for the section of the railway on which the accident occurred; and (IX of 1890.)

(*c*) the officer-in-charge of the railway police, or if there are no railway police, the officer-in-charge of the police-station in the jurisdiction of which the accident occurred.

(2) The date and hour at which the enquiry will commence shall be fixed, so as to give the officers mentioned in sub-rule (*1*) sufficient time to reach the place where the enquiry is to be held.

19. (1) As soon as any joint or departmental enquiry has been completed the President of the Committee or the head of the department, as the case may be, shall send to the Agent or Manager a report which in the case of all accidents of the nature described in the explanation to rule 5 must be submitted in the form prescribed by sub-rule (1) of rule 8.

(2) The Agent or Manager shall forward, with his remarks, as to the action it is intended to take in regard to the staff responsible for the accident, or for the revision of the rules or the system of working, a copy of such report—

(a) to the official mentioned in clause (b) of sub-rule (1) of rule 18; and

(b) if no enquiry or investigation has been made under rule 20 or if a joint or departmental enquiry has been held first, to the Magistrate or officer appointed under clause (a) of sub-rule (1) of rule 18; and

(c) if any judicial enquiry is being made, to the Magistrate making such enquiry.

(3) Such copies shall be accompanied in the case referred to in clause (b) of sub-rule (2), by a statement of the persons, if any, whom the Agent or Manager desires to prosecute, and in the case referred to in clause (c) of the same sub-rule, by a copy of the evidence taken at the enquiry.

Duties of Magistrates.

20. Whenever an accident, such as is described in section 83 of the Indian Railways Act, 1890, has occurred in the course of working a railway, the District Magistrate, or any other Magistrate who may be appointed in this behalf by the Local Government, may either— (IX of 1890.)

(a) himself make an enquiry into the causes which led to the accident; or

(b) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such an enquiry; or

(c) direct an investigation into the causes which led to the accident to be made by the police.

21. Whenever it is decided to make an enquiry under clause (a) or clause (b) of rule 20, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (b) of rule 20, as the case may be, shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the Agent or Manager of the railway and the Government Inspector by telegraph of the date and hour at which the enquiry will commence, so as to enable the railway administration to summon the requisite expert evidence.

22. A Magistrate making an enquiry under rule 20 may summon any railway servant, and any other person whose presence he may think necessary, and, after taking the evidence and completing the enquiry, shall, if he considers there are sufficient grounds for a judicial enquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Whenever technical points are involved, the Magistrate should call for the opinion of the Government Inspector or other professional persons.

23. The result of every enquiry or investigation made under rule 20 shall be communicated by the Magistrate to the Agent or Manager of the railway and to the Government Inspector.

24. If in the course of any judicial enquiry into an accident occurring in the course of working a railway, the Magistrate desires the assistance of the Government Inspector or of the Agent or Manager of the railway, or the attendance of any officer of the railway, to explain any matter relating to railway supervision, management or working, he will issue a requisition to the Agent or Manager for the attendance at court of an officer competent to explain such matter, stating at the same time the nature of the assistance required. In summoning railway servants, the Magistrate will take care not to summon so large a number of the employees, specially of one class, on the same day, as to cause inconvenience to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain a report from both the Government Inspector and the Agent or Manager of the railway in regard to the accident before finally concluding the judicial enquiry.

25. On the conclusion of any such judicial enquiry the Magistrate shall send a copy of his decision to the Agent or Manager of the railway, and to the Government Inspector, and shall, unless in any case he thinks it unnecessary to do so, report the result of the enquiry to the Local Government.

Duties of Police Officers.

26. (1) The railway police may make an investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

(a) whenever any such accident is attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or has *primâ facie* been due to any criminal act or omission; or

(b) whenever the District Magistrate or the Magistrate appointed under rule 20 has given a direction under clause (c) of that rule:

Provided that no such investigation shall be made when an enquiry has been commenced or ordered under clause (*a*) or clause (*b*) of rule 20.

(2) The railway police shall report, with as little delay as possible, to the nearest Station-master or, where there is no Station-master, to the railway servant in charge of the section of the railway on which the accident has occurred, every accident, which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property or which has *prima facie* been due to any criminal act or omission.

27. (1) Whenever an investigation is to be made by the railway police—

(*a*) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code or with serious injury to property; or

(*b*) in pursuance of a direction given under clause (*c*) of rule 20,

the investigation shall be conducted by the officer-in-charge of the railway police, or, if that officer should be unable to conduct the investigation himself, then by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall whenever possible be a gazetted officer, and shall in no case be of rank lower than that of Inspector:

Provided that if the accident has not been attended with loss of life or grievous hurt and if there is no suspicion of any neglect of rules on the part of any servant of the railway the investigation may be carried out by an officer-in-charge of a police-station.

28. The officer who is to conduct an investigation in pursuance of rule 27 shall proceed without delay to the scene of the accident and conduct the investigation there, and shall at once advise the Agent or Manager of the railway and the traffic officer of the district by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. The absence of a railway official must not, however, be allowed to delay the investigation, which should be made as soon as possible after the accident has taken place.

29. (1) In every case to which rule 27 applies, immediate information shall be given by the railway police to the district police, who, if so required, shall afford all necessary assistance, and shall, if occasion arise, carry the investigation beyond the limits of the railway premises. But the railway police are primarily entrusted with the duty of carrying on the investigation within such limits.

(2) Subject to any provisions elsewhere contained in these rules, the further prosecution of the case, on the conclusion of the police investigation, shall rest with the railway police.

30. The result of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the Local Government to the Agent or Manager of the railway or other officer appointed by him, and to the Government Inspector.

31. Where there are no railway police, the duties imposed by rules 26, 27 and 28, sub-rule (2) of rule 29, and rule 30 on the railway police, or on the officer-in-charge of the railway police, shall be discharged by the district police or by the District Superintendent of Police, as the case may be.

When any tenement, the annual value of which has been thus separately recorded, has remained vacant and unproductive of rent for ninety or more consecutive days during any year, such portion of the tax in respect of that year on the whole building shall be remitted or refunded as would have been remitted or refunded if the tenement had been separately assessed :

Provided that no such remission shall be made unless notice in writing of the circumstances in which it is claimed has been given to the Cantonment Authority, and no remission or refund shall take effect in respect of any period commencing more than fifteen days before the delivery of such notice.

ENACTMENTS REPEALED.

(*See* section 291.)

Year.	No.	Short title.	Extent of repeal.
1910	XV	The Cantonments Act, 1910	So much as has not been repealed.
1914	X	The Repealing and Amending Act, 1914	So much of the First and Second Schedules as relates to the Cantonments Act, 1910.
1919	XVIII	The Repealing and Amending Act, 1919	So much of the First Schedule as relates to the Cantonments Act, 1910.
1919	XXII	The Cantonments (Amendment) Act, 1919.	The whole.

STATEMENT OF OBJECTS AND REASONS.

A Committee, which was appointed by the Government of India in January 1921 to consider what changes were necessary in order to introduce into the administration of cantonments the spirit of the reformed scheme of Government, recommended a complete revision and amalgamation of the Cantonments Act (Act XV of 1910) and the Cantonment Code, 1912, in order to bring into conformity with ordinary municipal law the system under which military cantonments are administered.

The recommendations of the Committee have now been examined by the Government of India and the conclusions arrived at are embodied in the Bill.

The main features of the Bill are as follows :-

(*a*) It is proposed to take power to municipalize the government of those cantonments which contain a substantial civil population having no essential connexion with or dependence upon the military administration. In other cantonments where these circumstances do not fully exist the administration of cantonment affairs will be vested in the hands of the Commanding Officer of the Cantonment, who, for the purposes of the Act, will be constituted a corporation sole. The general effect will be that the Cantonment Authority will cease to be the purely executive agency of Government, which it is at present. In the larger cantonments the existing Cantonment Committee will be replaced by a Cantonment Board which will be municipal in character and an essentially local self-government body.

(*b*) The reformed Cantonment Authorities will have a separate legal persona, will be capable of suing and being sued in their own name and of making contracts. They will also be empowered to make bye-laws to govern local matters of administration which require different treatment in different cantonments.

(*c*) The cantonment fund under the reformed system will be a local fund vested in the Cantonment Authority.

(*d*) In the reformed cantonments where a Board is constituted a proportion of the Cantonment Board will be elected representatives of the civil inhabitants of the cantonment. An official majority will, however, be maintained.

(*e*) The Cantonment Magistrate, as such, will be eliminated. In his place an "Executive Officer" will be appointed. He will be paid by Government. He will perform, amongst other things, the duties of Secretary of the Board, and he will have no judicial powers or functions.

(*f*) The Local Governments will exercise certain larger powers of superintendence and control over cantonment affairs than they do at present.

(*g*) The military authorities will retain certain special powers in matters affecting the health, welfare and discipline of troops.

APPENDIX.

COMPULSORY MATHEMATICS.

The course is as follows:—

(1) *Arithmetic.*—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)

(2) *Algebra.*—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

[Candidates should be provided with squared paper.]

(3) *Geometry.*—Practical and Theoretical Geometry.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protector, a compass and a hard pencil.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

[Candidates will be provided with squared paper.]

SCHEDULE A.

Bisections of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if—

(*i*) a pair of alternate angles are equal, or

(*ii*) a pair of corresponding angles are equal, or

(*iii*) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilineal figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following Algebraical identities:—

$k(a+b+c+..)=ka+kb+kc+....$

$(a+b)^2=a^2+2ab+b^2.$

$(a-b)^2=a^2-2ab+b^2.$

$a^2-b^2=(a+b)(a-b).$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (*i*) if two arcs subtend equal angles at the centres, they are equal; (*ii*) conversely, if two arcs are equal they subtend equal angles at the centres.

In equal circles (or in the same circle), (*i*) if two chords are equal, they cut off equal arcs; (*ii*) conversely, if two arcs are equal the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary, and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion: Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right-angle triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

Bills introduced in the Bengal Legislative Council, Report of Select Committees presented or to be presented in that Council, and Bills published before introduction in that Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 996L., dated the 14th April, 1923.—The following Report of the Select Committee on the Calcutta Port (Amendment) Bill, 1923 (with the Bill, as amended by the Committee), is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA PORT (AMENDMENT) BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill further to amend the Calcutta Port Act, 1890, was referred, have considered the Bill, and have the honour to submit this, our report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

2. The more important changes are as follows :—

Clause 1.—The usual drafting amendment has been made in clause 1.

Clause 2 (new section 24B, sub-section (2)).—This proposed sub-section as drafted appears to us to be unduly restricted. As in the case of the Bombay Port Trust, the object of the provision is to limit the class of securities in which the Reserve Fund may be invested, and not to compel the investment of the entire amount of this money. Such a course would be inconvenient in working. We have altered this provision so as to make the intention more clear.

We have nothing to suggest in regard to clause 3.

New clause 3 A.—We suggest the insertion of clause 3A, containing a proposed new section 30A, so as to define more clearly the powers of the Commissioners to establish a Provident Fund for their employees and to distinguish between payments out of such Provident Fund and the payment of bonuses based on length of service which may be made to the employees out of the general revenues of the Port Commissioners. It is understood that application will be made to the Government of India for the notification of this Provident Fund under the Indian Provident Funds Act.

Clause 4.—Sub-clause (*b*), that is to say, new clause (*g*) in sub-section (*1*) of section 31 of the Act, has been recast so as to bring it into conformity with the new clause 3 A of the Bill.

Clause 6.—We consider that the powers of the Commissioners to incur expenditure during any one year in excess of the sum sanctioned in the Budget Estimate should be limited to an expenditure of a lakh and-a-half of rupees when such sums can be met from the ascertained savings on the estimate as a whole. We have inserted a provision to this effect.

We do not consider that the other provisions of the Bill as introduced need any amendment.

3. The Bill was published in English in the *Calcutta Gazette* of the 1st November, 1922.

4 We do not consider that the Bill has been so altered as to require re-publication.

5. We recommend that the Bill, as amended by us, be passed.

PART VI.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 27th March, 1923 :—

No. 16 OF 1923.

A Bill to provide for the prevention of deferred rebates and for the prevention of rate wars and resort to retaliatory or discriminating practices in the Coastal traffic of India.

WHEREAS it is expedient to provide for the growth of an Indian Merchant Marine by guaranteeing fair and healthy competition and by checking monopolies ;

AND WHEREAS for this purpose it is expedient to provide for the prevention of the grant of deferred rebates to or resort to retaliatory or discriminating practices and for the prevention of rate wars by common carriers engaged in the coasting trade of British India ; It is hereby enacted as follows :—

[Short] title, extent and commencement.

1. (1) This Act may be called the Prevention of Deferred Rebates Act, 192 .

(2) It extends to the whole of British India.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "a common carrier" means a common carrier engaged in the transportation by water of passengers or property between any two ports in British India or between any port in British India and any port or place in the Continent of India ;

(b) "deferred rebates" means a return of any portion of the freight money by a carrier to any shipper, as a consideration for the giving of all or any portion of his shipments to the same or any other carrier or for any other purpose, the payment of which is deferred beyond the completion of the service for which it is paid, and is paid only if, either during the period for which computed or the period of deferment or both, the shipper has complied with the terms of the rebate agreement or arrangement;

(c) "a subject" means a person and includes a corporation, partnership or association existing under or authorised by the laws of British India or of the dominions of princes and chiefs in alliance with His Majesty;

(d) "the coasting trade of India" means the carriage by water of goods or passengers; and

(e) "minimum rate" means a rate which covers cost of service and includes a fair return on capital invested after meeting depreciation and other essential charges.

Prohibition of deferred rebates and discriminating agreements.

3. No common carrier by water shall, directly or indirectly in respect to the coasting trade of India,—

(a) pay or allow or enter into any combination, agreement or understanding, express or implied, to pay or allow a deferred rebate to any shipper,

(b) retaliate against any shipper by refusing or threatening to refuse space accommodations when such are available, or resort to other discriminating or unfair methods, because such shipper has patronised any other carrier or has filed a complaint charging unfair treatment or for any other reason, and

(c) make any unfair or unjust discriminatory contract with any shipper based on the volume of freight carried or unfairly treat or unjustly discriminate against any shipper in the matter of—

(1) cargo space accommodation or other facilities, due regard being had for the proper loading of the vessel and the available tonnage,

(2) the loading and landing of freight in proper condition, or

(3) the adjustment and settlement of claims.

Governor General in Council to decide whether deferred rebates or discriminating agreements have been resorted to.

4. The Governor General in Council, without prejudice to the right of parties to move the Courts, upon his own initiative may, or upon complaint, shall, after due notice to all parties in interest and bearing, determine whether any person, joint stock company, corporation or association engaged in the coasting trade of India—

(1) has violated any provision of section 3, or

(2) is a party to any combination, agreement or understanding, express or implied, that involves in respect to the coasting trade of India a resort to deferred rebates and retaliatory or discriminating practices mentioned in section 3.

Power to Governor General in Council to prohibit entry into ports

5. If the Governor General in Council determines that any such person, joint stock company, corporation or association violated any such provision or is a party to any such combination, agreement or understanding, he may thereafter refuse such person, joint stock company, corporation or association the right of entry for any common carrier directly or indirectly under his or its control, into any port of British India until the Governor General in Council certifies that the violation has ceased or such combination, agreement or understanding has been terminated.

Common carrier to file copy of agreement with another common carrier.

6. Every common carrier shall file immediately with the Governor General in Council a true copy or, if oral, a true and complete memorandum, of every agreement with another such carrier, or modification or cancellation thereof, to which he may be a party, or conform in whole or in part, fixing or regulating transportation rates or fares; giving or receiving special rates, accommodations, or other special privileges or advantages; controlling, regulating, preventing or destroying competition; pooling or apportioning earnings, losses or traffic; allotting ports or restricting or otherwise regulating the number and character of sailings between ports; limiting or regulating in any way the volume or character of freight or passenger traffic to be carried; or in any manner providing for an exclusive, preferential or co-operative arrangement.

Carrier to file scales of maximum and minimum rates.

7. Every carrier shall also file with the Governor General in Council a scale of maximum and minimum rates.

Rates filed not to be departed from.

8. No carrier shall depart from the scale filed in accordance with section 7, except with the approval of the Governor General in Council. Whenever the Governor-General in Council finds that any rate or fare is unjust or unreasonable, it may determine, prescribe and order the enforcement of a just and reasonable maximum and minimum scale of rates and fares.

Reduced rates not to be increased without consent of Governor General in Council.

9. Whenever a carrier reduces its rates on the carriage of any species of freight to or from competitive points below a fair and remunerative basis with the intent of driving out or otherwise injuring a competitive carrier by water, it shall not increase such rates unless after a hearing the Governor General in Council finds that such proposed increase rests upon changed conditions other than the elimination of said competition.

Power to Governor General in Council to cancel or modify agreements.

10. The Governor General in Council may by order disapprove, cancel, or modify any agreement or any modification or cancellation thereof, whether or not previously approved by him, that he finds to be unjustly discriminatory or unfair as between carriers, shippers, exporters and importers or to operate to the detriment of the commerce of British India or to be in violation of this Act and shall approve all other agreements, modifications, or cancellations.

Penalties.

11. Whoever violates any provision of this Act or refuses or fails to carry out the orders of the Governor General in Council shall be liable to a fine of not less than ten thousand rupees or simple imprisonment to a term of not less than six months, or both.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove some of the main obstacles that lie in the way of the development of an Indian Merchant Marine. They mainly consist of methods whereby a shipper is practically bound to confine all his shipments to vessels belonging to a particular shipping company or to the members of a shipping conference, and rate wars waged for stifling all competition by ruthless and unfair rate-cutting. Not merely is the freedom of the shipper to ship his goods by any vessel he may choose thus destroyed, but the progress of trade along desirable channels is also checked. A "disloyal" shipper is penalised by (*a*) refusal of space, (*b*) discrimination in the contract of freight, (*c*) the loading and landing of freight, (*d*) the adjustment and settlement of claims and various other discriminatory methods. It is the purpose of this Bill to do away with such practices so that an Indian Merchant Marine may grow unhampered.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 21st March, 1923:—

No. 12 OF 1923.

A Bill for the removal of doubts regarding the right of women to be enrolled and practise as Legal practitioners.

WHEREAS it is expedient to remove certain doubts which have arisen as to the right of women to be enrolled and to practise as legal practitioners; It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Legal Practitioners (Women) Act, 192 .

(2) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

Definition.

2. In this Act, "legal practitioner" means a legal practitioner as defined in section 3 of the Legal Practitioners Act, 1879. XVIII of 1879.

Women not to be disqualified by reason only of sex.

3. Notwithstanding anything contained in any enactment in force in British India or in the letters patent of any High Court or in any rule or order made under or in pursuance of any such enactment or letters patent, no woman shall, by reason only of her sex, be disqualified from being admitted or enrolled as a legal practitioner or from practising as such; and any such rule or order which is repugnant to the provisions of this Act shall, to the extent of such repugnancy, be void.

STATEMENT OF OBJECTS AND REASONS.

The Letters Patents of the several High Courts empower them to admit proper persons as Advocates, Vakils and Attorneys, and to make rules for their qualification and admission. Sections 6 and 13 of the Legal Practitioners Act, 1879, similarly give powers to the High Courts and the Chief Controlling Revenue-authorities to make rules for the qualification and admission of persons as Pleaders and Mukhtars, and as Revenue Agents, respectively. Sections 6 and 31 of the Bombay Pleaders Act, 1920 (Bombay Act XVII of 1920) contain similar provisions as regards Pleaders in that Presidency. Conflicting decisions have been given by High Courts as to the right of women, who are otherwise qualified, to be enrolled and to practise as legal practitioners.

The Government of India consulted Local Governments and other authorities on the question of whether women should be as eligible as men to enter upon a career as legal practitioners. The general opinion expressed was that in the present conditions of India, this question should be decided by Indian opinion. An opportunity of obtaining the views of the Assembly upon the question arose in connection with the motion moved by Dr. H. S. Gour for the reference of his Bill further to amend the Legal Practitioners Act, 1879, to a Select Committee. During the course of the debate upon that Resolution, it was indicated that the acceptance of the motion by the Assembly would be regarded as an acceptance of the principle that no woman shall, by reason only of her sex, be disqualified from being admitted or being enrolled as a legal practitioner, or from practising as such in any court of law. The motion was accepted and in accordance with the undertaking given in the course of the debate on the motion the present Bill has been prepared to give effect to this view.

RECRUITMENT FOR THE BENGAL CIVIL SERVICE (EXECUTIVE) AND OTHER SERVICES BY COMPETITIVE EXAMINATION.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 11TH APRIL 1923.

RESOLUTION—No. 4184A.

READ—

Notification of this Government, No. 5798A., dated the 27th May 1922, publishing the rules for the recruitment of the Bengal Civil Service (Executive) and other services by competitive examination and the orders issued thereunder.

Reports of the Selection Committee and of the President, Examining Board.

IN notification No. 8126A., dated the 24th July 1922, it was announced that the following appointments would be made as a result of the examination—eight to the Bengal Civil Service (Executive), one to the Bengal Excise Service, and forty to the Subordinate Civil Service. Subsequently the Governor in Council found it necessary, in view of financial stringency, to limit the number of appointments in the Subordinate Civil Service to twenty, and an announcement to that effect was published on the 23rd November 1922.

After considering the report of the Retrenchment Committee the Governor in Council decided that as the candidates had already sat for the examination no further reduction should be made in the number of appointments. Of the eight candidates selected for the Bengal Civil Service (Executive), one was found to be medically unfit; and the Excise Department having abolished a post and no longer requiring a recruit, the candidate selected for the Excise Service was provided with a post in the Bengal Civil Service (Executive) in place of the candidate declared medically unfit. No appointment will therefore be made to the Bengal Excise Service. Another selected candidate for the Bengal Civil Service (Executive) was found to be medically unfit at the time of the examination, but will be given a further opportunity to pass the medical test in June. If he is then found unfit the vacancy will not be filled.

Of the candidates who have been selected for the Subordinate Civil Service, there are five who will be given a further opportunity of passing the medical test in June. Fifteen appointments are now made, and if any of these five are unable to pass the medical test in June, the Governor in Council will then decide whether the vacancies will be filled by the appointment of qualified surplus officers of other departments, or by the selection of further candidates who appeared at the examination, or will not be filled at all.

The candidates named below have been appointed—

COMMITTEE TO EXAMINE THE QUESTION OF HOUSING ACCOMMODATION IN CALCUTTA AND THE FACILITY OF COMMUNICATION BETWEEN CALCUTTA AND THE SUBURBS.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

(Local Self-Government.)

CALCUTTA, THE 12TH APRIL 1923.

RESOLUTION—No. 1232-M.

IN 1919, the Government of Bengal appointed a committee to enquire into the serious increase in house rents in Calcutta, to examine the charges of profiteering made against landlords, and to submit proposals for remedial measures if it was considered practical and desirable to control or limit the rise in rents. The committee submitted their report in February 1920. While deprecating rent control, the committee recommended that measures should be initiated for the development of areas, urban and suburban, in order to relieve the congestion in Calcutta, for improving facilities for traffic, for the extension and electrification of the suburban railway systems, and for providing means for rapid transit between Calcutta and its environs. The Calcutta Rent Act was enacted in May 1920, and the committee's proposals for dealing with the ultimate causes of the lack of housing accommodation were examined by Government and subsequently forwarded to a committee known as the Communications Committee appointed in 1919-20 by the Government of India (Railway Board) to consider a scheme for an electric circular railway for Calcutta and generally to make proposals for solving the problem of rapid transit to and from Calcutta.

2. The committee prepared a valuable and suggestive report, which dealt in detail with the whole question of the expansion and development of Calcutta.

They recommended *inter alia* that a central railway station should be provided in the heart of Calcutta, so as to enable suburban passengers to reach the business centre without a change of vehicle, and they were of opinion that this direct connection between the city and the suburban stations could only be obtained by means of an east and west tube railway, running perhaps from Sealdah or its vicinity *viâ* Bowbazar, Dalhousie Square, Clive Street, Harrison Road, Strand Road Junction, and thence under the Hooghly to the East Indian Railway (possibly at Lillooah).

They advised that an expert should be selected at once to investigate and settle all details in connection with the provision of a tube railway connection between the Eastern Bengal and East Indian Railways.

As regards the electrification of the suburban railway system, the committee were of opinion that apart from the question of tube railways, electrification was a financial proposition which each of the systems concerned must settle independently.

3. In January 1921 the Government of India (Railway Board) appointed Mr. Dalrymple-Hay, Consulting Engineer to Tube Railway in London, to examine the question of opening tube railways in Calcutta and to submit a

preliminary report with estimates. Mr. Dalrymple-Hay sent his chief assistant Mr. Ogilvie to obtain all necessary information and to make such enquiries as would enable him to report on the question of the construction of tube railways in Calcutta and the adjoining municipality of Howrah. Mr. Ogilvie returned to London in June 1921, and Mr. Dalrymple-Hay's report was submitted in November 1921. The total cost of construction was estimated at £ 3,326,154, and it was estimated that the time required for the completion of the tunnels and works and the final adjustment of the permanent way would be four and-a-half years. In forwarding a copy of the report to the Local Government the Government of India, Railway Department (Railway Board), accepted the view expressed by the Calcutta Communications Committee that the scheme, if ever carried out, must be financed locally as a provincial undertaking.

4. The Calcutta Rent Act of 1920 will expire on the 5th May 1923, and a Bill has just been passed to extend the present Act until the end of March 1924. In respect of the better class of house, the supply at present shows some signs of overtaking the demand, but in Calcutta the pressure on the housing accommodation is permanently excessive, and a return to the normal is not sufficient. Moreover, rents are still very high as the result of causes, which were operating also in 1920. Several of the remedies which were then proposed have been examined, but the development of Calcutta on the lines suggested above involves enormous expenditure which Government, local authorities such as the Corporation and the Improvement Trust, and private companies, are in no position to undertake. Calcutta still remains in the position she occupied in 1920—a modern city hedged in by railways and canals and surrounded by insanitary and undeveloped suburbs, which are associated with their centre merely by contiguity or concentricity and not linked therewith by adequate radial roads. Rent control in the circumstances which exist can be justified as a temporary expedient but, it has the demerit of producing an artificial adjustment and thus a false security, which must divert attention from the bolder remedies, which the position demands. The reports of the two committees, to which reference has been made, clearly indicate desirable lines of advance, but at the present juncture it is hardly possible to undertake schemes of such magnitude. There are nevertheless certain minor remedies which would undoubtedly mitigate, though they can not finally solve, the difficulties of the present position.

The substitution of motor transport for the bullock and buffalo cart, the introduction of motor omnibus services by private companies, with possibly some system of guaranteed dividends, the relegation of slow cart traffic to certain routes, the question of tramway extensions, the more rapid development of the suburbs by the local authorities and by building societies organized on a co-operative basis, improved standard designs for houses of the smaller kind so as to accelerate construction in prepared areas by "mass" methods, the formation of garden suburbs on the outskirts of Calcutta in the vicinity of suburban railway stations—these are matters which need not wait upon the execution of those other more costly schemes which are also essential for the development of Calcutta.

5. The Government of Bengal (Ministry of Local Self-Government) have therefore decided that a committee should be appointed—

(1) to examine the conditions which operate to produce a permanent lack of equilibrium between supply and demand in respect of housing accommodation in Calcutta ; and

(2) generally to suggest what measures, whether legislative or of other kinds, appear likely to offer some practicable solution, in spite of financial stringency, of the housing problem and to enable an improvement to be made in the communications between Calcutta and the suburbs.

The committee will consist of the following members :—

1. Mr. C. F. Beadel, C.I.E., *President.*
2. The Chairman of the Calcutta Improvement Trust.
3. The Chairman of the Calcutta Corporation.
4. The Chairman of the Port Commissioners.
5. Babu Ram Taran Banerjee.
6. The Agent, E. B. Railway.
7. Raja Reshee Case Law, C.I.E., M.L.C.
8. Mr. W. J. Traise.
9. Mr. F. E. Winmill.
10. Mr. J. Campbell Forrester.
11. Babu M. L. Ganguly, Assessor to the Corporation.
12. Mr C. W. Gurner, I.C.S., District Magistrate of Howrah.
13. The Chairman of the Cossipore-Chitpur Municipality.
14. The Chairman of the Garden Reach Municipality.
15. Babu Ramdeo Chokani.
16. Mr. A de Bois Shrosbree.
17. Mr. Mahboob Ali, M.L.C.
18. Mr. J. H. de C Ballardie.
19. Babu U. N. Kar.
20. Mr. D. J. Cohen, M.L.C.

Mr. Gurner has kindly consented to act as Secretary in addition to his present duties.

By order of the Government of Bengal
(Ministry of Local Self-Government).

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Third Forecast of the Wheat Crop of Bengal, 1922-23.

[NOTE.—On an average of the five years ending 1920-21, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending, 1920-21, averaged (*a*) 48·8 and (*b*) 15·0 per cent., respectively.]

Character of the season.—Since the issue of the second forecast, the crop is reported to have improved in the districts of Burdwan, Bogra, Dacca and Faridpur, but to have deteriorated somewhat in Darjeeling. The recent rainfall though beneficial to some extent came too late to be of material value. On the whole the season has not been favourable for the crop.

Area sown.—According to District Officer's estimates, the total area sown amounts to 124,400 acres this year as against 124,100 acres reported both in the special and final forecasts of last year.

Outturn.—From the district estimates the provincial outturn works out at 75 per cent. of the normal this year against 67 and 68 per cent. reported, respectively, in the special and final forecasts of last year.

Taking the normal yield to be 8¼ maunds per acre, the gross yield of the crop for the province is estimated at 28,600 tons this year as against 26,000 and 26,300 tons reported, respectively, in the special and final forecasts of last year.

R. S. FINLOW,
Director of Agriculture, Bengal (offg.).

DACCA, *the 9th April 1923.*

[This is issued in place of the special wheat forecast under the Government of India Order No. 935-970, dated the 15th November 1922.]

APPENDIX I.

Third Forecast of the Wheat Crop of Bengal, 1922-23.

District.	Estimated normal area under the wheat crop.	Estimated area under wheat.		Taking 100 to represent the normal outturn what would be the average outturn per acre cropped.		Date on which the harvesting of the crop was begun this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1921-22).	This year (1922-23).	Last year.	This year.		
	Acres.	Acres.	Acres.				
Nadia ...	23,100	13,100	11,700	42	83	Beginning of March. Normal.	The decrease in area is due to want of timely rain. The weather was not favourable for the growth of the crop owing to insufficient rainfall which has reduced the outturn.
Murshidabad ...	35,500	21,600	21,800	47	67	March to April. Normal...	The weather conditions continued dry after sowing and the absence of moisture in the soil affected the growth and caused damage to the extent of about 33 per cent.
Jessore ...	3,800	900	700	50	50	March	The weather has not been favourable. The fall in outturn is due to want of timely rain.
Burdwan ...	1,600	2,300	2,200	67	117	End of February to middle of March.	Since the submission of the second forecast, the weather was unusually cool until the third week of March owing to there being more than usual number of rainy days. The outturn is above the normal owing to good rain.
Birbhum ...	4,800	3,100	3,100	50	83	Middle of March	The weather has been fairly favourable. Want of rain has affected the outturn.
Bankura ...	4,900	2,500	3,400	75	100	Middle of February ...	The weather has been favourable. A normal outturn is expected.
Midnapore ...	800	800	800	75	67	March. Normal	The weather has not been favourable. Want of rain during the period of growth affected the crop.
Hooghly ...	400	1,700	900	67	67	End of March. Normal ...	The weather has not been favourable for want of timely rain.
Rajshahi ...	18,600	9,300	10,000	83	67	Middle of March. Normal	The increase in area is due to the fact that the crop has been largely grown in the flood affected area. Want of rain retarded the growth of the crop and has affected the outturn.
Dinajpur ...	1 300	1,300	1,600	67	59	......	The increase in area is due to increase in prices. The weather has not been favourable.
Jalpaiguri ...	800	500	500	92	92	End of March	The weather has been fairly favourable in the Alipore subdivision, but unfavourable in the Sadar subdivision. Want of occasional showers has caused a decrease in outturn.
Darjeeling ...	2,900	2,500	2,500	83	83	......	The weather has been fairly favourable.
Rangpur ...	3,400	3,400	3,400	100	100	Beginning of March ...	The weather has been good and a normal outturn is expected.
Bogra ...	100	300	300	70	80	Last week of March. Late	The weather has not been favourable owing to want of rain during the period of growth.
Pabna ...	8,800	6,200	6,300	50	67	Middle of March. Normal	The decrease in area as compared with the second forecast is due to revision. The weather was favourable at the outset, but continued drought since the sowing time retarded the growth and damaged about two-thirds of the crop.
Malda ...	48,000	48,000	48,000	75	75	Ditto ...	The weather was not favourable. Continued drought somewhat retarded the growth of the crop causing some damage. The rainfall in February benefited only a part of the crop.
Dacca ...	4,100	3,500	3,500	60	64	End of March. Normal ...	Want of timely rain affected the growth of the crop.
Mymensingh ...	500	200	600	83	100	......	The weather has been favourable and a normal outturn is expected.
Faridpur ...	2,700	2,900	2,900	40	68	March. Normal	The weather was a little favourable since the submission of the second forecast. The rainfall in February helped the growth of the crop. Want of timely rain damaged the crop by about 33 per cent.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 27th March, 1923:—

No. 15 OF 1923.

A Bill further to amend the Indian Limitation Act, 1908.

WHEREAS it is expedient further to amend the Indian Limitation Act, 1908; It is hereby enacted as follows:— IX of 1908.

1. This Act may be called the Indian Limitation (Amendment) Act, 192 .

Amendment of section 19, Act IX of 1908.

2. In section 19 of the Indian Limitation Act, 1908 (hereinafter referred to as the said Act), the following amendments shall be made, namely:— IX of 1908.

(a) In sub-section (*1*), for the words "an acknowledgment" the words "a clear and unconditional acknowledgment" shall be substituted, and for the words "signed by" the words "signed and dated by" shall be substituted;

(b) sub-section (*2*) shall be omitted;

(c) Explanation I shall be omitted; and

(d) for Explanation II the following shall be substituted, namely:—

"*Explanation II.*—For the purposes of this section 'signed' means signed either personally or by an agent duly authorised in writing in this behalf."

Amendment of section 20, Act IX of 1908

3. (a) For sub-section (1) of section 20 of the said Act, the following shall be substituted, namely :—

> "where anything is paid either as interest or part of the principal of a debt or legacy before the prescribed period by the debtor or by his agent duly authorised in writing in this behalf, the entry as to such payment being signed and dated by the payer, a fresh period of limitation shall be computed from the date of payment."

(b) Sub-section (2) of the same section shall be omitted.

Amendment of section 21, Act IX of 1908

4. In sub-section (1) of section 21 of the said Act, after the word "authorised" wherever it occurs, the words "in writing" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of the proposed amendment is to decrease litigation, perjury, forgery and fraud. At present many facts are required to be proved by oral evidence which the Courts may or may not believe and the result is always uncertain.

Under the proposed amendment, a clear and unconditional acknowledgment duly signed and dated by the person liable or by his agent duly authorized in writing will be required to extend time. Debtors should not be taken by surprise by an ambiguous or undated writing which might be used to extend the period of limitation.

In section 20, there is always a dispute whether the payment was made on account of interest as such. Under the amended section, part payment of principal and payment of interest have been placed on equal footing. Similar amendment has been made in section 21. Authority of an agent to extend time under any of the sections referred to in this Bill must always be in writing and not oral.

I hope the proposed amendments, if passed into law, will considerably reduce litigation and the multiplicity of witnesses will be avoided.

For the 15 vacancies advertised 52 applications were received, but as it was found that funds would permit of a larger number of wards being elected, 22 girls were elected on the recommendation of a sub-committee consisting of the Rev. J. Godber, the Rev. T. Vander Schueren, S.J., the Rev. A. Lincon Shute, D.D., and Mr. Maurice Remfry. Of the girls elected, 12 were placed in the Loreto Convent, Entally (5 in the 1st, and 7 in the 2nd, Boarding School), 2 in the Loreto Convent, Asansol, 3 in the Calcutta Girls' High School, 1 in the Pratt Memorial School, 1 in St. Paul's Mission School and 1 in Dow Hill School, Kurseong. Two girls did not join.

(2) Of the 19 girls withdrawn during the year, 11 had attained the age of 17, the limit ordinary allowed under the rules, and 8 were withdrawn for other reasons.

(3) Of the girls who had been withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, one is employed as a telephone girl and one as a typist in private firms, another after finishing her course in shorthand and typewriting has taken up a post at the Methodist Mission in Rajputana. Three have completed their course in shorthand and typewriting, and are trying for appointments. One is a teacher at a School in Calcutta, and one has joined the Dow Hill Training College, Kurseong.

(4) At the close of the year there were 83 wards on the rolls against 82 in the previous year. They were distributed as follows :—

Loreto Convent, Entally	1st Boarding 20, 2nd Boarding 22	42
ditto Asansol	...	7
St. Mary's Convent, Naini Tal	...	3
Calcutta Girls' High School	...	11
Pratt Memorial School	...	7
LaMartiniere for Girls	...	1
Calcutta Free School	...	6
St. Paul's Mission Home	...	4
Stewart School, Cuttack	...	1
Dow Hill School, Kurseong	...	1
	Total	83

(5) The following table affords particulars as to the class and religion of the wards at the close of the year :—

Class.	Roman Catholics.	Church of England.	Non-Conformists.	Total.
1. Orphans, or deserted by their parents ...	6	4	[illegible]	12
2. Fatherless or motherless, or deserted by their fathers or mothers ...	38	13	5	56
3. Those who have both parents alive ...	7	3	5	15
Total ...	51	20	12	83

(6) The health of the wards were generally satisfactory. There were no deaths.

IV. Education and Maintenance.—(1) The nature of the education given to the wards was that prescribed for Higher Grade Schools under the Code of Regulations for Europeans Schools in Bengal, and in a few cases, for Secondary Schools.

(2) The Governors are anxious that their wards should not be allowed to drift until they leave school, and have accordingly asked the Visiting-Governor to report, in consultation with the School Authorities, and the girls themselves who have, or are about to attain the age of 15, some definite proposals where this seems desirable, so that the last two years of their school-life may be spent to the best advantage and be a preparation for earning a living.

(3) Two wards were sent up for the Senior Cambridge Local Examination held in December 1921, and one passed. Two were sent up for the Junior Cambridge, and one passed. One was sent up for the Elementary School Certificate Examination and one for the Commercial Course Examination, and both passed. Several wards appeared at the Cambridge Local Examinations held in December 1922; the results are not yet known.

(4) Under the rules a girl is not ordinarily allowed to remain on the Fund after the age of 17, when an outfit of Rs. 100 is generally given on application, to enable her to make a start in life. In cases where wards wish to be trained as teachers and have the support of the school authorities, or where some other special training is recommended, or they are preparing for higher examinations, some extension of the period of benefit is generally allowed. One ward was granted a year's extension to enable her to sit for the Senior Cambridge Local Examination. Two were granted extensions for two years each, and one for one year, to enable them to undergo a Commercial Course.

(5) The monthly average cost for the education and maintenance of each ward amounted to Rs. 25-2 against Rs. 25-12-6 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below :—

V. Inspection.—Mr. W. F. Papworth was appointed visiting governor for the first half, and Mrs. J. H. Rundlett for the second half, of the year. They visited all the schools in Calcutta in which there were Bruce wards, and saw each ward. On their recommendation certain wards were allowed to take up a commercial course in place of the ordinary school course. Mr. Papworth reported that the general health of the wards was good and that the children appeared well cared for, neat and cheerful. He strongly urged that no girl be allowed to receive a secondary education unless her school record in the primary section (*viz.*, up to and including standard IV) clearly indicated that she was worth it, and that care should be taken to see that no girl received the type of education for which she was obviously unfitted.

VI. Meetings.—Four meetings were held during the year, and among the various resolutions passed the following may be recorded :—

(*a*) That a girl on election should ordinarily be sent to an Elementary School whether not at school or already in a Secondary School.

(*b*) That a girl on election may, for good reason shown, be permitted to join a secondary school if the mother or any one else pays the extra fee, or if the school is prepared to accept her for the Elementary School allowance.

(*c*) That for a girl joining a Secondary School, the Governors should not pay more than the Elementary School allowance while she is in the lower or non-secondary classes.

(*d*) That for girls in Secondary Schools in classes beyond Standard IV, payment should always be made at the secondary rate.

(*e*) That arrangements should be made to remove promising girls from Elementary to Secondary, and unpromising girls from Secondary to Elementary Schools after Standard IV.

(*f*) That wards should not be restricted to Schools in Bengal.

(*g*) That for wards ordered to the Hills by medical authority, the extra expenditure necessary may be regarded as a fair charge upon the funds of the Institution, and that this expenditure be continued until the end of the school year in which it is certified that they are fit to return to their original schools.

That for a Bruce ward transferred, with the consent of the Governors, from a higher grade to a secondary school, or *vice versa*, a second outfit grant of Rs. 5[illegible] may be paid to the receiving school. No second outfit grant shall otherwise be given.

RESOLUTION ON THE REPORT OF THE WATER-HYACINTH COMMITTEE, BENGAL.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Agriculture.

DARJEELING, THE 16TH APRIL 1923.

RESOLUTION—No. 41T.-A.I.

Minister in charge: The Hon'ble Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.

IN pursuance of a resolution carried at a meeting of the Bengal Legislative Council the Government of Bengal in June 1921 appointed a committee to enquire into the spread of the water hyacinth in Bengal and to suggest measures for its eradication. The committee have submitted a report in which they have not been able to come to a unanimous conclusion on the important question of the measures to be taken for the eradication of the pest, but they have unanimously recommended that an investigation be undertaken in the first instance into the life history of the water hyacinth and its mode of propagation, and later on into practical methods of checking its growth and the possibility of its economic utilization. Pending further investigation, the committee recommend the encouragement of the collection of the hyacinth and its destruction by fire as the only means of immediate amelioration of the situation created by the pest. They are also of opinion that concerted action, which should be secured by legislation, is necessary. The Government of Bengal (Ministry of Agriculture and Public Works) regret that the committee's lack of unanimity renders it very difficult to decide on the most desirable action to be taken. They agree with the committee that concerted action is necessary for the eradication of the pest and that, until some chemical method of effectively combating it is evolved, its collection and destruction by fire is the most practical way of dealing with it. They will also consider the question of legislation, and they are enquiring from the Government of Burma about the results obtained from the operation of the Burma Water Hyacinth Act, 1917 (I of 1917). The Government of Assam are also being invited to co-operate with this Government in any measures, legislative or experimental, which it may be decided to adopt. The Hon'ble Minister is also impressed with the necessity for the whole-hearted co-operation of the public in any measure of mechanical eradication of the water hyacinth which may serve even as a temporary palliative. The local bodies and municipalities and the Eastern Bengal and Assam-Bengal Railway authorities have in the past interested themselves in measures for dealing with the pest, but owing to the lack of concerted action their efforts have not so far been productive of encouraging results. The Government of Bengal (Ministry of Agriculture and Public Works) hope to win their co-operation in such measures as they may now take.

2. The committee were not unanimous about the efficacy of the spray, demonstrations of which were given by its inventor, Mr. T. S. Griffiths. Sir Jagadish Chandra Bose and some members of the committee hold that the demonstrations were inconclusive. The experiments conducted on a small scale at Dacca under the supervision of the Imperial Mycologist and Economic Botanist to the Government of Bengal do, however, afford grounds for the belief that the fluid used by Mr. Griffiths, although harmless to human

beings and animals, results on application in the destruction of the water hyacinth.

. Steps have accordingly been taken to communicate with Mr. Griffiths to ascertain the terms on which he would be prepared to undertake an extensive demonstration of the efficacy of his spray during the current year.

3. The Minister in charge desires to convey his thanks to the President and members of the committee for the trouble and care with which they investigated the question at so much personal inconvenience and sacrifice.

By order of the Government of Bengal
(Ministry of Agriculture and Public Works),

J. T. DONOVAN,
Secretary to the Government of Bengal (offg.).
